

PREFACE

Praise and Thank God the writer prayed to God for all of His grace so that this thesis can be completed well in accordance with the planned time. This thesis entitles **“Development of Hypercontent Module Based on High Order Thinking Skills (HOTS) on Work and Energy Material Grade X SMA Negeri 11 Medan”** was prepared to obtain Sarjana Pendidikan (S1) in Physics Education, Faculty of Mathematics and Natural Science, Universitas Negeri Medan.

On this occasion the author would like to say thank to the Chancellor of the Universitas Negeri Medan, Mr. Dr. Syamsul Gultom, S.KM, M.Kes., Mrs. Prof. Dr. Fauziyah Harahap, M.Si as the Dean of FMIPA. Mr. Dr. Wawan Bunawan, M.Pd., M.Si as the head of Physics Department of FMIPA. Mrs. Dr. Dewi Wulandari, S.Si., M.Si as the chairman of the Department of Physics Education. And Mr. Sabani, S.Pd., M.Si as the secretary Department of Physics.

The author would like to say thank to Mr. Dr. Juniastel Rajagukguk M.Si as my thesis supervisor that who has given a lot of advice, motivation and suggestions to author from the beginning until the completion of this thesis. And the author also would like to thanks to Mr. Prof. Dr. Nurdin Bukit, M.Si., Mr. Drs. Togi Tampubolon M.Sc., PhD., and Mrs. Dr. Nurliana Marpaung M.Si., as my examiners who have provided a lot of constructive input and suggestions in improving the writing of this thesis. And do not forget to say thank to Mr. Drs. Juru Bahasa Sinuraya M.Pd as my academic supervisor who has provided advice and motivation began to receive authors in this Department of Physics.

The author also would like to say thank to Mr. Drs. Juniar Hutahaean, M.Si., and Mr. Muhammad Kadri, S.Si., M.Sc as my material expert and also to Mr. Dr. Nurdin Siregar, M.Si and Mr. Abdul Rais, S.Pd., M.T., M.Si as my media expert who has provided advice and Mrs. Dr. Ely Djulia, M.Pd as coordinator of Bilingual class and Mrs. Dr. Techn Marini Damanik, S.Si., M.Si as secretary of Bilingual class who gave support during my study in Bilingual Class.

The author also would like to say thank to Mrs. Emi Desmawati, S.Pd. as Principal of SMA Negeri 11 Medan and especially to Mrs. Ederiana Br. Sidebang S.Pd., M.Pd as the physics teacher who helped and guided the author in conducted research at SMA Negeri 11

Medan, and also to all of the students of X IPA 2 SMA Negeri 11 Medan as my research sample who gave the chance to do this research.

In particular, the author would like to express her deepest gratitude to the people whom author really loves about especially to my father Mr. Jannes Panigoan Panjaitan and my beloved mother Mrs. Nurhayati Br. Aruan, my brothers Immanuel Joseloise Panjaitan ST and Thomas Hobbes Panjaitan STP who always provide support in terms of material, motivation, advice and especially for prayer and affection so that the author can complete study at Universitas Negeri Medan.

The author also would like to thank to my best friend since the day one Meliana Ecclesia Manurung, and to my lovely classmates Bilingual Physics Educations 2017 who gave me support for 4 years in the campus and also to “Kemenangan Terjadi Disini”. Last but not least to my best friends Emilio, Susi, Ruth, Mawaddah and Luca Rath for always be there for me and giving me unconditional love.

Thank you also to the organization of IKBKF UNIMED that always support the author during undergraduate education, my friends of service at CG OVERFLOW Maranatha who have also provided support and prayers in completing this thesis.

The author has made every effort in completing this thesis, but the author realizes that there are still many weaknesses in both content and grammar of this thesis writing. For the author expects suggestions and constructive criticism from readers for the perfection of this thesis. Hopefully this thesis can be useful in enriching education knowledge.

Medan, June 2021
