Life Motto……. *i*

Approval Sheet…… *ii*

Biography……..... *iii*

Originality Statement Sheet……... *iv*

Approval of Publication Sheet……..……..*v*

Abstrak…….……... *vi*

Abstract……... *vii*

Acknowledgement……..… *viii*

Table of Contents……...… *x*

List of Figures……..… *xiv*

List of Tables……...… *xv*

List of Appendice……... *xvi*

CHAPTER I. INTRODUCTION……..… **1**

1.1. Background of the Study…… **1**

1.2. Problem Identification……. **6**

1.3. Scope of Study……...… **7**

1.4. Scope of Problems……. **7**

1.5. Research Questions…….. **8**

1.6. Study Objectives…….. **8**

1.7. Research Benefits…….…… **9**

1.8. Operational Definitions……... **10**

CHAPTER II. LITERATURE REVIEW…… **11**

2.1. Theoretical Description…….…… **11**

2.1.1. Collaboration Skills…….. **11**

2.1.2. Concept Mastery of the Human

Respiratory System…… 13
2.1.3. Learning Model…….. 24
2.2. Relevant Research…….. 34
2.3. The Framework of Thinking…… 37
2.4. Research Hypothesis…….. 40
2.4.1. Verbal Hypothesis…….. 40
2.4.2. Statistical Hypothesis…….. 41
CHAPTER III. RESEARCH METHOD…….. 42
3.1. Location and Time of Research…… 42
3.2. Types of Research…….. 42
3.3. Population and Sample…….. 42
3.4. Research Variables…….. 43
3.5. Research Design…….. 44
3.6. Data Collection Techniques…….. 44
3.7. Research Instruments……. 45
3.7.1. Student Collaboration Skills Instrument……. 45
3.7.2. Concept Mastery of the Human Respiratory System Test Instrument…….. 46
3.8. Research Procedure……..…50
3.9. Data Analysis Techniques…….. 52
3.9.1. Descriptive Statistical Techniques……. 52
3.9.2. Inferential Statistical Techniques…….. 52
CHAPTER IV. RESULT AND DISCUSSION…….. 55
4.1. Description of Data…….. 55
4.1.1. Collaboration Skills of Students who were taught with the GI Learning Model……. 55
4.1.2. Collaboration Skills of Students who were taught with Conventional Learning Model…. 57
4.1.3. Compariaon of the Aspects of Collaboration Skills between Students who were taught with the GI Learning Model and those who

were taught with the Conventional Learning Model…… 58
4.1.4. Concept Mastery of the Human Respiratory System by Students who were taught with the GI Learning Model…… 59
4.1.5. Concept Mastery of the Human Respiratory System by Students who were taught with the Conventional Learning Model……..…… 61
4.1.6. Comparison of Cognitive Levels of Concept Mastery of Human Respiratory System between Students who were taught with the GI Learning Model and those who were taught with the Conventional Learning Model…… 62
4.2. The Requirements Analysis Test…… 63
4.2.1. The Normality Test……..…… 64
4.2.2. The Homogeneity of Variances Test……..…… 65
4.3. The Hypothesis Test…….……...… 66
4.3.1. The Difference between the Data on the Value of Collaboration Skills of Students who were taught with the GI Learning Model (A1) and the Data on the Value of the Collaboration Skills of Students who were taught with the Conventional Learning Model (A2) ……...…… 66
4.3.2. The Difference between the Value Data on Concept Mastery of The Human Respiratory System by Students who were taught with the GI Learning Model (B1) and the Value Data on Concept Mastery of The Human Respiratory System by Students who were taught with the Conventional Learning Model (B2) ……...…… 67

4.4. Research Discussion…… 67
4.4.1. The Differences in Collaboration Skills of Students who were taught with the GI Learning Model and Students who were taught with the Conventional Learning Model…… 67
4.4.2. The Differences in Concept Mastery of the Human Respiratory System by Students who were taught with the GI Learning Model and Students who were taught with the Conventional Learning Model…… 70

CHAPTER V. CONCLUSION AND SUGGESTION…… 72
5.1. Conclusion…… 72
5.2. Suggestion…… 73
