

PREFACE

Praise and gratitude the author conveys to the presence of God Almighty, for His blessings and gifts the author was able to complete the preparation of this thesis properly. This thesis is entitled "The Development of Android-Based Interactive Augmented Reality Learning Media to Improve Student's Conceptual Understanding of Two-Dimensional Shapes". This thesis was prepared to fulfill one of the requirements for obtaining a bachelor's degree in mathematics education, Faculty of Mathematics and Natural Sciences, Universitas Negeri Medan.

In the preparation of this thesis, of course, the author cannot be separated from the help and support of various parties. Therefore, on this occasion the author would like to express his gratitude to Mr. Mangaratua M. Simanjorang, M.Pd., Ph.D. as a thesis supervisor who has taken the time in the midst of his busy life to provide direction and guidance to the author from the beginning of proposal writing, research, to the end of writing this thesis. Thanks to Prof. Dr. Asmin, M.Pd., Mrs. Dr. Ani Minarni, M.Sc., and Mr. Muliawan Firdaus, S.Pd., M.Sc., as examiners who have provided suggestions and directions for the improvement of this thesis. Thanks to Mr. Dr. Kms. Muhammad Amin Fauzi, M.Pd., as academic supervisor during lectures. The author's gratitude goes to Mr. Drs. Bowonaso Lahagu, MM. as the Principal of SMP Negeri 35 Medan, Mr. Wahilson Saragih, S.Pd., as the mathematics teacher who helped the author, as well as the employees of SMP Negeri 35 Medan who have received and helped the author well with his hospitality.

On this occasion the author would like to express his deepest gratitude to his beloved parents, my father Resman Siagian and my mother Juita Siburian, who have given motivation, love, prayers, moral and material assistance and worked hard to educate and raise the author. with love and blessing as well as invaluable advice and sacrifices who have had a great influence on the success in the preparation of this thesis along with their dearest brothers and sisters Karyn Siagian and Krissandra Siagian and their big family who always encourage and motivate the author so that the author can complete the preparation of this thesis in order to earned a bachelor's degree (S1).

The authors also thank PKK FAMOUS SG, Selvina Harefa, S.Pd., and my KTB David Simarmata, S.Pd., Ezra Simarmata, S.Pd., Margaretha Siburian, S.Pd.,

Peronika Sihaloho, S.Pd, and Tiffani Pangestu, S.Pd., who always listen to the author's complaints and provide continuous advice and support in the research process. The authors also thank Lewerin J SG (Angelina, Desy, Marlina, and Messyanti) and Laviona Meira SG (Caroline, Desti, Reni, Rika, Sherly) who always give encouragement, support and prayers. Thanks also to the Koordinasi Penabur 2021 (Frida Sianipar, S.Pd., Ica Marbun, S.Pd., Ayu Sitorus, S.Pd., Elisabeth May, S.Pd., Mindo Naibaho, Evi Nainggolan, Irvan Nainggolan) and the Team of UKMKP UP FMIPA 2021 who helped and gave encouragement in completing the preparation of the author's thesis. The author would also like to thank the friends at Naposo HKBP Air Bersih who always support and pray for the author. The author also thanks the Bilingual Mathematics Education 2017 friends who helped and motivated the author. And friends from KKN Siopat Sosor 2020 especially for the Keluarga Cemana who always support the author.

The author has made every effort to complete this thesis, but the author realizes that there are still many weaknesses in terms of content and grammar, for that the author expects suggestions and constructive criticism from readers for the perfection of this thesis. Hopefully this thesis can be useful for readers and can be a source of creative ideas to enrich knowledge in advancing education in this country.

Medan, December 2021

Author,

Kevin Fransdyto Siagian
