

## ACKNOWLEDGEMENT

Alhamdulillah, praise and gratitude the writer prayed to Allah SWT, for His blessing and grace the writer is able to finish this thesis by title “Effect of SAVI Approach in Jigsaw Cooperative Learning Model on Students’ Activity and Learning Outcome in Biodiversity Topic in X Grade of SMA N 3 Medan Academic Year 2015/ 2016” to fulfill one of the requirements for degree of Sarjana Pendidikan in Biologi Department, FMIPA UNIMED.

The enormous appreciation and gratitude the writer presented to Prof. Dr.rer.nat. Binari Manurung, M. Si. as thesis supervisor who has given guidances, suggestions, comments, encouragements, and spent precious time, so this thesis comes to its present form. The writer also would like to thank to Prof. Dr. Herbert Sipahutar, MS, M. Sc., DR. Fauziyah Harahap, M. Si., Selvia Dewi Pohan, S. Si., M. Si., as thesis examiners who have given criticisms and valuable advices. Special thanks to all lectures of Biology Bilingual Education Program, Headmaster and also Biology teachers in SMA N 3 Medan who helped the writer during the research.

Deepest gratitude the writer presented to beloved parents, Hartaty and Wardana Nasution for their love, encouragement throughout entire life, and also to beloved sisters and brother, Winda, Wulan, Fahmi for their kindness. Finally, the writer also thank to amazing women in circle of fraternity for their support, sharing experiences and to friends in Biology Bilingual 2011 for togetherness during four years and to Fatimah and Saras who helped the writer in the research, and to all people who helped and supported the writer in other way. May Allah bless and reward all those who contributed in the completion of this thesis. Hopefully, the thesis will be beneficial to contribute idea in education.

Medan, Januari 2016  
Writer,

Atika J. H. Nasution
