ABSTRACT

DESY RATNAWATY SEGALA, Nim. 6184411001. The Relationship between Cultural Characteristics and the Motivation of North Sumatra Wushu Sanda Athletes in 2021.

(Supervisor : Dr. Suryadi Damanik, M.Kes)

FACULTY OF SPORT SCIENCE

This study aims to determine the relationship between cultural characteristics and the motivation of Wushu Sanda athletes in North Sumatra in 2021. This study was designed using associative quantitative research with test and non-test analysis techniques and then using a path analysis approach.

The population in this study were all 25 senior male and female athletes in Wushu Sanda, North Sumatra. The sampling technique in this study was to take the overall sample (total sampling).

The stages in this study were information analysis, preparation of research instruments, testing of research instruments, and testing of research instruments, validation of research instruments, and implementation of research. The instrument on cultural characteristics uses a questionnaire which is arranged based on a questionnaire, then the athlete's motivational instrument uses a questionnaire which is arranged based on a questionnaire.

Based on the results of the study it can be concluded that (1) there is a significant influence of cultural characteristics on the motivation of wushu sanda athletes by 98.8%.

Keywords: Characteristics, Culture, Wushu Sanda.
