Dear SUCI FRISNOIRY.

Your manuscript entitled "Development Of Microlearning Object On High School Geometry Materials" is now peer-reviewed and comments are accessible in Word format. Peer review reports can also be downloaded at the Online Manuscript Tracking System.

We would be grateful if you could respond to the reviewers' comments in the revised manuscript and answer all the questions raised by the reviewers in a cover letter. Any revisions must be made to the attached manuscript.

We are pleased to invite you to submit your valuable manuscript to this journal of Russian Law Journal Q2.

Russian Law Journal (RLJ) is an independent, professional journal that covers recent legal developments not only in the Russian Federation, but also on international and comparative level. **RLJ** magazine is one of the first English-language legal academic editions regularly published in Russia.

The RLJ encourages comparative research by those who are interested in Russian law, but also seeks to encourage interest in all matters relating to international public and private law, civil and criminal law, constitutional law, civil rights, the theory and history of law, and the relationships between law and culture and other disciplines. A special emphasis is placed on interdisciplinary legal research

The papers will be published within Months and the Publication fee is 1200 Euro.

Regards,

Dear SUCI FRISNOIRY,

The paper originality is good.

We are sending you originality report of the text.

Your work is currently in process of review, and it will be finished as soon as possible.

We would be grateful to you if you could revise your manuscript according to the following comments:

Table 1 is unclear. Please provide us the table with high resolution to allow for reading the details of them. And make sure that all lines and lettering within the tabel are legible at final size.

Dear SUCI FRISNOIRY,

We have received reviewer's comments on the manuscript language.

Please adjust your paper according to the comments and requests provided in the document.

1. I did not find specific comments of table 2, so I was unable to gain a full comprehension of the authors perspectives or arguments. This could have helped change some of my opinions. Some comments have been addressed very well.
2. There is a mismatch between what you will be trying to measure and your own stated objectives. Therefore, you really need to work on reshaping your argument or redefining path analyses were carried out; the first path is the three equation models, and the second path is the one equation model.

Please submit the revised paper to us by email in MS Word or LaTeX format within two weeks and do not submit it into the Online Manuscript Tracking System.
