

PREFACE

Praise and gratitude the researcher pray to God Almighty, for his participation, the researcher is given health, opportunity, and knowledge so that researcher can complete this research properly and by the planned time.

The title of this thesis is “Development of E-book STEM-based on Human Digestive System Material to Improve Scientific Literacy Skill” which was compiled to obtain a Bachelor of Education (S.Pd) degree, Faculty of Mathematics and Natural Sciences, State University of Medan. Hopefully, it can provide benefits to fellow students and the reading community.

The researcher realizes that writing this thesis is inseparable from various difficulties in the process of completing it. For this, the researcher is grateful to:

1. Sir Dr. Hasruddin, M.Pd, as the Thesis Supervisor, has helped and provided guidance, direction, and constructive suggestions to the researcher from the beginning of the research until the completion of writing this thesis.
2. Mam Dr. Melva Silitonga, M.S., Mam Widia Ningsih, S.Pd., M.Pd, and Mam Wina Dyah Puspita Sari, S.Si., M.Si, as the examiners who have provided many suggestions and recommendations in completing this thesis.
3. Mam Dr. Mariati Purnama Simanjuntak, S.Pd., M.Si, as the author's Academic Advisor, has provided good guidance, direction, and input in carrying out lectures from start to finish on this campus.
4. Mam Khairiza Lubis, S.Sc., M.Sc., Ph.D, is chairman of the Biology department, Mam Aswarina Nasution, M.Pd, is secretary of the Biology department who always provides information both non and academic to us.
5. Mam Dr. Ely Djulia, M.Pd, as head of the Bilingual program, and Mam Wina Dyah Puspita Sari, S.Si., M.Si, as head of the Natural Science Education study program, and Mam Dr. techn. Marini Damanik, M.Si, who have guided and assisted in all administrative matters.
6. Sir Halim Simatupang, S.Pd., M.Pd., Sir Aristo Hardinata, S.Pd., M.Pd., and Mam Lastama Sinaga, S.Pd., M.Ed, lecturers in Natural Science Education who are outstanding as usual, thank you for involving me in everything related to research, workshops, publication of research articles, and many more. Hopefully, in the future, we will become colleagues!

7. All lecturers and staff of the Biology, Bilingual Program, Natural Science Education Study Program, and those who have helped me from the beginning of the study to the end of the study.
8. All experts have provided criticism and suggestions to researcher to create a better E-book.
9. Mam Rusdah Lubis, S.Pd., M.M., received me well, starting from the beginning of research at school until the end. Mam Kiki Handayani, S.Si., and Mam Ikhwani Lubis, S.Pd, have helped me with my research and trusted me to teach classes VIII-1 and VIII-3 for research purposes. As well as all students who were enthusiastic when carrying out the research.
10. Researcher family, who are very loved, namely father Efendy Maruhum Sihombing and mother Erlinawati, who always provide prayers, affection, support, and materials. Thanks also to the researcher brother and sister, Tommy Jorgy Sihombing, Yudha Jodhi Sihombing, Putri Jessica Sihombing, and Petra Jonggy Sihombing, and the entire Sihombing family.
11. NSESP 2019 friends, Aulia, Geovani, Grace, Jennie, Jenita, Kezia, Lia, Monika, Saidatunnisa, Sherly, and Winanta. Researcher is proud to be able to attend 11 great, challenging friends and to be entrusted with becoming a class leader from the beginning to the end of this lecture. Keep spirit for all of us!
12. Kampus Mengajar's four colleagues SMPS Bina Satria Medan, Angel, Anggita, Anggi, Riza, and Rohan, helped me conduct research at school.
13. UKM Persma Kreatif Unimed colleagues, especially Crew 33, have become partners in their duties and responsibilities as staff.

The researcher has tried his best in writing this thesis, but the researcher expects constructive criticism and suggestions from readers for improvement in this thesis. Finally, the researcher would like to say thank you, researcher hope this thesis is useful to add insight in education.

Medan, 31 January 2023

Researcher,

Rizky Agassy Sihombing
