

ABSTRACT

Amelia, Rizky. Registration Number: 2173121055. The Implementation of Classroom Management For Interactive Class of Students Based on Online Learning in SMA N 21 Medan. A Thesis. English Educational Study Program, State University of Medan, 2021.

The aim of this study was to find out how English teachers at SMA N 21 Medan implement online classroom management so that it becomes an interactive class even though it is done online during the Covid19 pandemic. The methodology of this study is descriptive qualitative research. Data were collected using several instruments such as observation and interviews. The findings of this study reveal that during the pandemic, teachers manage online classes by using several learning applications to carry out the online learning process, and according to the teachers studied that this method is less efficient and ineffective in learning for students.

Keywords: Implementation, Classroom Management, Online Learning, and Interactive Class.
