

ABSTRAK

Kenny Yohanna Veronica Manurung. 5183342001. “Hubungan Sikap Kemandirian Belajar Dengan Hasil Praktek Produk Bakery Dan Pastry Di SMK Putra Anda Binjai”. Skripsi. Jurusan Pendidikan Kesejahteraan Keluarga. Program Studi Pendidikan Tata Boga. Fakultas Teknik. Universitas Negeri Medan.2023.

Penelitian ini bertujuan untuk mengetahui: (1) Sikap Kemandirian Belajar. (2) Hasil Praktek Produk Bakery Dan Pastry. (3) Hubungan Sikap Kemandirian Belajar dengan Hasil Praktek Produk Bakery Dan Pastry. Lokasi penelitian dilaksanakan di SMK Putra Anda Binjai. Waktu penelitian September - November 2022. Desain penelitian yang digunakan adalah *Deskriptif Korelasi*. Populasi dalam penelitian ini adalah siswa kelas XII SMK Putra Anda Binjai dengan jumlah 35 orang. Pengambilan sampel menggunakan teknik *Total Sampling*, sehingga yang menjadi sampel penelitian ini adalah siswa kelas XII Jasa Boga dengan jumlah 35 orang. Data sikap kemandirian belajar dikumpulkan dengan menggunakan angket dan hasil praktek membuat produk bakery dan pastry. Teknik analisis data menggunakan *deskripsi data*, uji kecenderungan, uji normalitas, uji linieritas, dan uji hipotesis dengan analisis *product moment*.

Hasil penelitian menunjukkan bahwa tingkat kecenderungan sikap kemandirian belajar termasuk kategori cenderung tinggi sebesar 79 persen dan hasil praktek produk bakery dan pastry termasuk dalam kategori cenderung cukup sebesar 100 persen. Berdasarkan hasil perhitungan korelasi *product moment* antara variabel sikap kemandirian belajar dengan hasil praktek mata pelajaran produk bakery dan pastry diperoleh nilai $r_{xy} = 0,946$. Dengan demikian nilai $r_{hitung} > r_{tabel}$ ($0,946 > 0,344$), maka dapat disimpulkan bahwa “Terdapat hubungan yang positif dan signifikan antara sikap kemandirian belajar dengan hasil praktek mata pelajaran produk bakery dan pastry”. Artinya semakin tinggi sikap kemandirian belajar siswa, maka semakin tinggi hasil praktek produk bakery dan pastry.

ABSTRACT

Kenny Yohanna Veronica Manurung. 5183342001. "The Correlation between Attitudes of Learning Independence with the Results of Bakery and Pastry Product Practices at Putra Anda Binjai Vocational High School". Thesis. Family Welfare Education. Culinary Education Study Program. Faculty of Engineering. Medan State University, 2023.

This study aims to determine: (1) Independent Learning Attitudes. (2) Results of Bakery and Pastry Product Practices. (3) The relationship between independent learning attitudes and the results of bakery and pastry product practices. The research location was carried out at Putra Anda Vocational High School Binjai. Research time September - November 2022. The research design used is Descriptive Correlation. The population in this study were class XII students at Putra Anda Binjai Vocational School with a total of 35 people. Sampling used the Total Sampling technique, so that the samples for this study were class XII catering services with a total of 35 people. Data on learning independence attitudes were collected using a questionnaire and the results of the practice of making bakery and pastry products. Data analysis techniques use data description, trend test, normality test, linearity test, and hypothesis testing with product moment analysis.

The results showed that the level of tendency towards independent learning was in the high category, which was 79 percent, and the results of bakery and pastry product practices were included in the moderate category, which was 100 percent. Based on the results of calculating the product moment correlation between the independent learning attitude variable and the results of the bakery and pastry product practice subjects, the value of $r_{xy} = 0.946$ is obtained. Thus the value of $r_{count} > r_{table}$ ($0.946 > 0.344$), it can be concluded that "There is a positive and significant relationship between the attitude of independent learning with the results of the practice of bakery and pastry product subjects". This means that the higher the attitude of student learning independence, the higher the practice results of bakery and pastry products.
