

## PREFACE

Praise and gratitude the author prays to the presence of Allah SWT, because of His grace the writer can complete the thesis entitled " The Effect Of Cooperative Learning Model Numbered Head Together (NHT) Type On Student Higher Order Thinking (HOT) Learning Outcomes In Optical Devices Topic At SMA Negeri 1 Secanggang". This thesis is written to fulfill one of the requirements needed to achieve a Bachelor of Education degree in the Physics Education Study Program, Faculty of Mathematics and Natural Sciences (FMIPA), Universitas Negeri Medan (Unimed).

During the research and writing of this thesis there were many obstacles that the writer experienced, but thanks to the help, encouragement and guidance from various parties, finally this thesis could be completed properly. Through this opportunity, the author would like to express his gratitude to all those who have helped in the preparation of the thesis.

I dedicate all my struggles to date to the two most precious people in my life, namely my beloved father Marwansyah Lubis (Alm.) and my beloved mother Yusra, S.Pd. whom I love very much. Thank you for being the perfect parents. Thank you for struggling with researcher, sacrificing a lot of time, energy, and effort to support researcher to achieve his dream. For Papah, may Allah place Papah in the best place beside Him. For Mom, may Allah always bless you with health, happiness, blessings, and a long life. May all the prayers that you have prayed for researchers be a bridge to success in this world and the hereafter.

Thank you to the author's siblings, Mawarda Yusmara Lubis, S.Pd. and her husband Ariyansyah, S.Pd., Khairunnisa Lubis, S.Pd., Napla Prestia Sabila Lubis, Rabiatul Azzahra Lubis who have provided support, prayers, and entertainment during the lecture process and completion of this final project. Stay enthusiastic, sincere, and steadfast until the end.

My deepest gratitude goes to the Thesis Supervisor, Prof. Dr. Derlina, M.Si. for all the help and support and new knowledge that the author got from the preparation of this thesis. With all the busyness that exists in work and education, he is still willing to guide and direct the author in the preparation of this thesis.

Thank you and I apologize for all mistakes, both intentional and unintentional. To Dr. Erniwati Halawa, M.Si., Dr. Yuni Warty, M.Si., and Mr. Irham Ramadhani, S.Pd., M.Pd. as examiners, who have provided a lot of input and suggestions for improving the thesis starting from the proposal seminar to the thesis trial stage, so that this thesis can be completed properly. The author also expresses her gratitude to Dr. Ely Djulia, M.Pd. as the coordinator of the Bilingual program, who has become a parental figure during the author's participation in the Bilingual program. The author would like to thank Mr. Dr. Wawan Bunawan, M.Pd., M.Si. as the Academic Advisor who has been a parent figure during the author's time in college. The author also does not forget to thank the Principal, Teachers of SMAN 1 Secanggang and the students of class XI MIPA 2 and XI MIPA 3, especially Mrs. Syafriani, S.Pd. and Mr. Ramadhan Syahputra, S.Pd. for their help in accepting and giving flexibility to the author to conduct research and helping the author during the research.

Thank you to my best friends Syifa Khairunnisa, Hamdi Arrayan, S.Pd., Alieffia Dzilbira, S.Pd., and Nasrullah Aziz, S.Pd., who were always by my side during the lecture period. Thanks also to my seniors Dian Wardana, Ardiansyah Lubis, S.Pd., Nurhamidah, S.Pd., Wahyu Ananda, Fazri Imran, Aiwan Syarif Hasibuan, S.Pd., Maulidatul Fadhillah, S.Pd., Syahrani Anina Pratiwi, S.Pd., Lis Asmara, S.Pd., and Silvani Br. Tarigan who always encouraged, supported, and became a good listener when the author wanted to share his complaints.

Thank you to my AAS friends Della Rosa, A.Md.T., Antoni, S.Pi., Riska, S.H., Darmawan, S.Sos., and Maulia Fazira soon to be S.T., who have always been by my side since high school days until now. I would also like to thank Bagus Hadiwibowo, Rafiki, Idan, Anuar Luthfi, and Dena Amanda for always encouraging me, supporting me, and being a good listener when I wanted to share my worries. In particular, the author would like to thank the owner of NIM 190200125 who has taken a lot of time and helped the author during the lecture and thesis completion process so that this thesis is well completed.

Dear 2019 Bilingual Physics Education Family, thank you for all the memories and experiences that have been engraved in the author's mind, the story

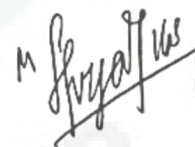

of the struggle while completing lectures and being a place to ask questions in the process of completing the thesis.

The author would also like to thank YBM Brilian and the management, Mr. Abdul Halim as Mentor, Bright Scholarship Unimed Batch 5 friends, thank you for the experience, support and all the kindness given. a place where I grew and lived a very pleasant lecture period, a place where I felt appreciated and chosen because I met great people who I could not mention one by one.

The author thinks that this thesis is the best work that the author can present. However, the author realizes that it is possible that there are shortcomings in it. Therefore, constructive criticism and suggestions are very much expected. Finally, I hope this thesis can be useful for the author in particular and for the readers.
