

ABSTRACT

SELPIYANI BR SIMANJORANG. The Effect of Classical Guidance Services Through Modeling Techniques on Interpersonal Relations of Class XI-IPA Students at SMAN 4 Medan Academic Year 2022/2023. Thesis Department of Educational Psychology and Guidance, Faculty of Education. Medan State University. 2023.

This study aims to determine whether there is an influence of classical guidance services through modeling techniques on interpersonal relationships of students in class XI IPA at SMAN 4 Medan. The formulation of the problem in this study is: whether classical guidance through modeling techniques on interpersonal relationships of class XI IPA students at SMAN 4 Medan. The method used in this study is a quantitative method. This type of research is a Pre-experimental design in the form of One Group Pre-test and Post-test Group Design. This research was conducted from August to October 2022. The sample in this study was 40 students of class IX IPA Semester 1. The instrument used is a questionnaire to determine the level of students' interpersonal relationships. Instruments are given before and after the implementation of classical guidance. Then the data were analyzed using the Wilcoxon test to see if there was a significant effect of giving classical guidance on students' interpersonal relationships. This can be obtained from the results of calculations with the earliest score (pre-test) obtained an average of = 129.26% while the post-test data obtained an average of = 132.17%. This can be obtained from the Wilcoxon test which shows that the Wilcoxon level test is obtained $J_{count} = 280$ while $J_{table} = 89$. From the table the critical value of J for the Wilcoxon marked level test for $n = 40, \alpha = 0.05$ according to the criteria with acceptance and rejection of the hypothesis, the hypothesis is accepted if $J_{count} > J_{table}$ where $280 > 89$. From the results of the calculation of the hypothesis which reads that there is a significant effect of providing classical guidance services through modeling techniques on the interpersonal relationships of class XI IPA students at SMAN 4 Medan, it is acceptable.

Keywords : Classical Guidance, Interpersonal Relations

ABSTRAK

SELPIYANI BR SIMANJORANG. Pengaruh Layanan Bimbingan Klasikal Melalui Teknik Modeling Terhadap Hubungan Interpersonal Siswa Kelas XI-IPA di SMAN 4 Medan Tahun Ajaran 2022/2023. Skripsi Jurusan Psikologi Pendidikan dan Bimbingan, Fakultas Ilmu Pendidikan. Universitas Negeri Medan. 2023.

Penelitian ini bertujuan untuk mengetahui apakah ada pengaruh layanan bimbingan klasik melalui teknik modeling terhadap hubungan interpersonal siswa kelas XI IPA di SMAN 4 Medan. Rumusan masalah dalam penelitian ini adalah: apakah bimbingan klasik melalui teknik modeling terhadap hubungan interpersonal siswa kelas XI IPA di SMAN 4 Medan. Metode yang digunakan dalam penelitian ini adalah metode kuantitatif. Jenis penelitian ini adalah *Pre-experimental design* dengan bentuk *One Group Pre-test and Post-test Group Design*. Penelitian ini dilaksanakan pada bulan Agustus s/d Oktober 2022. Sampel dalam penelitian ini adalah siswa kelas XI IPA Semester 1 sebanyak 40 orang. Instrumen yang digunakan adalah angket untuk mengetahui tingkat hubungan interpersonal siswa. Instrumen diberikan sebelum dan sesudah pelaksanaan bimbingan klasikal. Kemudian data dianalisis menggunakan uji Wilcoxon untuk melihat adakah pengaruh signifikan pemberian bimbingan klasikal terhadap hubungan interpersonal siswa. Hal ini dapat diperoleh dari hasil perhitungan dengan skor terawal (*pre-test*) diperoleh rata-rata = 129,26% sedangkan data *post-test* diperoleh rata-rata = 120,83 %. Hal ini dapat diperoleh dari uji Wilcoxon yang menunjukkan bahwa uji jenjang Wilcoxon diperoleh $J_{hitung} = 280$ sedangkan $J_{tabel} = 89$. Dari tabel nilai kritis J untuk uji jenjang bertanda Wilcoxon untuk $n = 40$, $\alpha = 0,05$ sesuai dengan kriteria penerimaan dan penolakan hipotesis, hipotesis diterima jika $J_{hitung} > J_{tabel}$ di mana $280 > 89$. Dari hasil perhitungan, hipotesis yang berbunyi ada pengaruh signifikan pemberian layanan bimbingan klasik melalui teknik modeling terhadap hubungan interpersonal siswa kelas XI IPA di SMAN 4 Medan dapat diterima.
