

CHAPTER V

CONCLUSION AND SUGGESTIONS

Afer the researcher found the Findings of the research, the conclusion can be drawn below:

5.1 Conclusion

The research is aimed to figure out the reasons for the implementation of cartoon animation in teaching speaking and the students' perception on the use cartoon animation in learning recount text. Based on data analysis and discussion, it can be concluded that the majority of the students gave positive responses to the implementation of cartoon animation in teaching speaking. The students also gave good and positive perceptions of learning speaking using cartoon animation especially for recount text materials. Students stated that the learning process through the cartoon animation was good. Moreover, the students also thought that learning speaking comprehension by using cartoon animation had many advantages, such as making learning more interesting, improving their communication skills throughout the group discussion, motivating students to be more active, and confident, and then the material was easier to understand.

5.2 Suggestions

It could be seen in the previous chapter that the students had positive perceptions toward the use of cartoon animation in learning recount text. The researcher that this research still had weakness such as time constraints during the

process of research. Therefore, the researcher wanted to give recommendations for the English teacher, the students, and also the future researchers.

1. For the English Teacher

It is suggested that English teacher to use interesting animation as media in explaining the topic and showing the examples of recount text. It is also suggested that the teacher should use variation in teaching speaking, so that the students are not bored in following the teaching-learning activity.

2. For the Students

There are two suggestions for the students. First, the students should concentrate more in the learning process, because English is one of the important lessons in school. The second is they also should be more active in the learning process. They can achieve good score in English lesson.

3. For Future Researchers

The researcher recommends that the future researchers conduct research in topic about the perceptions on the use of animation in other skills such as speaking skill with reading another story about recount text. It is also suggested for the future researchers to follow the innovation of cartoon' character and use an up-to-date animation.
