

## CHAPTER V

### CONCLUSION AND SUGGESTION

In this chapter, there are two main sections. Conclusion and suggestions, the conclusion section contains a summary of the findings from the research and discussion relating to the formulation and research objectives. The suggestions section contains suggestions aimed at readers and students who are interested in culinary linguistics.

#### A. Conclusion

In this study, the main objective was to classify the two most viewed recipes on the Love and Lemons blog. The recipes are Breakfast Sandwiches and Breakfast Healthy Tacos. The two recipes analyzed by using corpus analysis in determining lexical, food jargon, and hedging. Data collection was carried out through the use of the AntConc application in analyzing, the results of the analysis showed the total findings of both recipes in searching for lexical, food jargon, and hedging.

1. Classifications lexical items and hedges found on Love and Lemons blogs obtained are lexical items in recipe Breakfast Sandwich (106), modification breakfast sandwich (13), evaluation breakfast sandwich (12) and hedges breakfast sandwich (7). While the classifications of lexical items found in recipe Breakfast Healthy Tacos (47), modification breakfast healthy tacos (13), evaluation breakfast healthy tacos (12), Hedges Breakfast Healthy Tacos (6). Based on the results that have been obtained by researchers, the lexical contained in the Love and Lemons blog is widely used in the process

of making healthy breakfast sandwiches and breakfast tacos. The use of hedges in the Love and Lemons blog to express a lack of certainty or caution in introducing readers with additional choices or options about what to mix the recipe with. Data was obtained from recipes for breakfast sandwiches and breakfast healthy tacos uploaded from the Love and Lemons blog, then analyzed and categorized using the theories of Crystal (1966) and Diemer and Frobenius (2013) regarding lexical, food jargon, and hedges in food blogs. However, in this study it was found that lexical items were most often used in the two recipes, namely breakfast sandwiches and breakfast healthy tacos.

2. The use of food jargon in recipe breakfast sandwich and breakfast healthy tacos based on Crystal theory found (8) types of food and (9) connotes of food from recipe breakfast sandwich and (12) types of food, (8) connotes of food from recipe breakfast healthy tacos. Food jargon terms are often used in food processing and food recipes in breakfast sandwich recipes and healthy breakfast taco recipes. Use of hedging on the Love and Lemons blog to express a lack of certainty or caution in presenting readers with additional choices or options about which recipe to mix.

## **B. Suggestion**

The suggestions from this research, show some lessons for individuals who want to study and learn food blogs and culinary linguistics, especially English literature.

1. For the readers, this research suggested to know about the current culinary linguistics study by previous research.
2. For English literature, students can study and learn culinary linguistics, which includes lexical, food jargon and hedges.
3. This research suggested for the next researchers who interest in food, especially in food blog.
