

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

5.1 The Conclusion

after analyzing the data, the researcher concluded that the media used by the teacher was not effective enough to make students understand about writing recount texts. students still find it difficult to write texts and are confused about grammar. they also only understand a few vocabulary words, especially in writing recount texts. So researchers want to attract and motivate students with interesting media such as Lecturer Inspire. the solution for them to be able to develop their writing skills is to use new learning media. The development of lectora inspire media was adapted from the theory of Borg Gall and Gall (2003) which was simplified into, (1) Data and Information Collection, (2) Needs Analysis, (3) Media Design, (4) Validation by Experts, (5) Revision, (6) Final Product. From the results of the assessment of experts, the average percentage is 0%, so it is categorized as "Good" with its position in the range of 81-100. So, it can be concluded that the lectora inspire media as a learning media for writing skills is valid and appropriate to be used as a learning medium for students.

5.2 Suggestions

Based on the result of research obtained, there were some suggestions given for the consideration the future:

1. To the English Teacher

Media is a learning tool and tool that is very important and influences success in the teaching and learning process between students and students, especially

inteaching writing recount texts. Therefore, high school teachers in teaching writing need interesting, innovative, and attractive media such as the Lectora Inspire media to increase students' interest and motivate them to learn. Teachers must be able to create and develop other English learning media that suit what students need. Teachers also have to get technology and create media that can make students interested and increase their knowledge, especially writing skills.

2. To the students

students are expected to be more active and creative in learning English and more active in improving skills in English such as writing skills. because skills in English are important skills for students to use in the future. students can use lectora inspire media as a medium that helps and attracts them to develop their abilities and creativity especially in writing skills and with that they can develop their abilities well. and the need for them to understand vocabulary is very important to be able to improve their English speaking skills

3. To the researcher

The aim of this study is only focused in developing a visual learning media, so further research will be needed to determine the effect of using this media lectora inspire on students' achievement in order to get the accurate evaluation. Meanwhile, they can use this research as the reference for their study.
