

ACKNOWLEDGEMENT

Praise and gratitude to God Almighty, who has given his grace and grace so the author can complete this thesis entitled Development of Web-Based Learning Media on Nervous System Materials for High School Students. This thesis was prepared to meet some requirements for a Bachelor of Education degree in Biology Education Study Program, Faculty of Mathematics and Natural Sciences (FMIPA), Medan State University (UNIMED).

The preparation of this thesis has gone through a long, exhausting road and various stages by standard procedures in force at Faculty of Mathematics and Natural Sciences in Medan State University, ranging from observation, determination of research topics, preparation and seminar proposals, revision of proposals, research implementation, and preparation of the thesis. The selection of research topics is based on current problems related to technology development in education. The role of technology in education is essential to realize quality education in the digital age.

Completing this thesis is not separated from the help, support, guidance, direction, or motivation from various parties. Therefore, on this occasion, with sincerity and humility, the author would like to thank Mr. Dr. Hasruddin, M.Pd., and Mr. Wasis Wuyung Wisnu Brata, M.Pd., as thesis supervisor for her guidance and direction so that all stages in the preparation of this thesis can be adequately passed. Thank you, Mr. Prof. Dr. Herbert Sipahutar, M.S., M.Sc., Mr. Eko Prasetya, S.Pd., M.Sc., and Mrs. Khairiza Lubis, M.Sc., Ph.D., as a lecturer examiner, who has a lot of criticism and suggestions for improvement ranging from seminar proposals to the examination stage to maintain the thesis, so that the thesis can be adequately resolved. Thank you also to Mr. Drs. Adil, M.Si., as material expert lecturer and Imelda Wardani Br Rambe, M.Pd., as a media expert lecturer who has validated my research instruments. Thanks to Mr. Dr. Diky Setya Diningrat, S.Si., as a lecturer, has helped me a lot in providing advice and direction in preparing thesis proposals to carry out proposal seminars. Thanks to Mrs. Prof. Dr. Fauziyah Harahap, M.Si., as an academic advisor and all Biology lecturers and staff employees in the Department of Biology who have helped in lectures, the author also thanked Mr. Fadlin Amin Hia, S.Pd., as Headmaster, Mrs. Wahidah Murfy Nasution, S.Pd., deputy principal for curriculum,

Mrs. Ermila Hafni Nasution, M.Pd., as biology teacher, and students Class XI in Private High School Baitul Aziz Deli Serdang for their help in accepting and giving breadth to the author in conducting research in the scope of the school.

The author realizes that the preparation of thesis will only be resolved with the support of various parties, directly or indirectly. Through this opportunity, the author would like to express his gratitude to all those who have helped in the preparation of the thesis. First of all, the author would like to thank you with all humility and dedicate this thesis to my beloved family, especially to the author's parents, beloved father and mother, Mr. Panji Irawan Jayalaras and Mrs. Irma Juliyanti who have fully supported the author's education until now and spend energy and time to work hard, give advice, motivation, enthusiasm, and material and do not forget to pray for the author. Incredibly, this gratitude is also dedicated to the author's beloved sisters, Nadiah Dwijaya and Abib Sanjaya, who have always been faithful in providing assistance, support, encouragement, and prayers to the author. Thanks to partners like the author's family, Rizka Annisa, S.Pd., Muhammad Azhari, S.Pd., and Khalid Harfaz, S.Pd., M.Si., which has helped me a lot in the preparation of the thesis proposal, research, providing support, encouragement, prayer, and motivation for the author. My thanks to the author's extended family and friends, who can't be mentioned one by one, have given the spirit of prayer for the author until the completion of thesis.

The author realizes thesis still has shortcomings and limitations. However, while expecting constructive criticism and suggestions, the author hopes this thesis can be helpful for related parties, especially moving towards educational transformation in the digital era, realizing learning by adapting educational paradigms to suit the demands of the times.
