PREFACE

The author would like to express His praise and gratitude to God, Almighty for His blessings and mercy as well as the health given so that the author can complete his thesis with the title "Analysis of Student Misconceptions in Learning Buffer Solution Material Using Four-Tier Test with Certainty of Response Index Method". The preparation of this thesis is one of the requirements for obtaining a Bachelor of Education degree in the Department of Chemistry, Faculty of Mathematics and Natural Sciences, Universitas Negeri Medan.

On this occasion, the author would like to express her thanks to Mam Elfrida Ginting, S.Si., M.Sc., Ph.D., as thesis supervisor, who has provided a lot of guidance and advice to the author from the beginning of preparing the proposal, the proposal seminar, and conducting research until the completion of this thesis. Thanks were also conveyed to the examining lecturer, Sir Dr. Ayi Darmana, M.Si., Mam Dr. Techn. Marini Damanik, M.Si., and Mam Susilawati Amdayani, S.Si., M.Pd., who have provided input and suggestions for the perfection of the preparation of this thesis. Thank you to the lecturers in the chemistry department, especially Mam Dr. Ani Sutiani, M.Si., as the Academic Supervisor lecturer who provided motivation. The author also does not forget to thank Mam Prof. Dr. Retno Dwi Suyanti, M.Sc., and Mam Mutiara Agustina Nst, S.Pd., M.Pd., as validator lecturers in this research.

Thanks are also expressed to the Principal, Teachers and students of SMAN 1 Girsang Sipangan Bolon who have helped carry out this research. This sheet also serves as a medium for the author to express his thanks to all parties who always support the author in working on his thesis. The author realizes that all efforts will not be realized without the help of all parties, therefore with all humility the author would like to thank:

1. My beloved father and mother, Mr. Tumpak Hekbin Sihite and Mrs. Linda Pardede, thank you for the prayers, motivation, financial and affection given to the author so far until the author can reach this moment.
2. My beloved siblings, brothers Leonard Davinci Sihite and Ronaldo Viktor Sahata Sihite for all forms of motivational support, which always convinces the author that all forms of difficulties can definitely be overcome.

3. The extended family from the father's and mother's sides always provide motivation to the author.

4. My best friend, Desi Simanjuntak, who always provides encouragement and support to the author.

5. The boarding house friends on the first and second floors, as well as the members of Gang Julid, especially Lorensia Gulo, Hertiani Simanjuntak, and Gracia Tarigan, who were fellow final students, become a place to share their grievances, provide assistance in various matters, and support the author.

6. College friends Erianti Simbolon, Ijayanti Pardosi, and Gracia Tarigan, who have been with the author from the beginning until the end of the lecture, and become a place for sharing during the lecture period.

7. To all my classmates in CESP 20 who have participated in helping the author work on the author's thesis.

8. Thank you to all the people who cannot be mentioned one by one who have helped in the process of writing this thesis.

9. Last but not least, I'd like to express my appreciation for my efforts during the lecture from start to finish. Thank you for persevering and not giving up in the face of adversity in order to achieve this goal.

The author realizes that this thesis still has shortcomings and limitations; however, while expecting constructive criticism and suggestions, the author hopes that this thesis can be useful for related parties, especially in correcting misconceptions in learning buffer solutions.
