

ABSTRAK

AGNES JENITA GINTING. Pengaruh Model Pembelajaran *Star With A Question* (LSQ) Terhadap Hasil Belajar Siswa Pada Pembelajaran IPAS Materi Indonesia Kaya Raya Di Kelas V SD Negeri 101771 Tembung T.A 2023/2024. Skripsi. Medan: Fakultas Ilmu Pendidikan. Universitas Negeri Medan. 2024.

Penelitian ini dilakukan dengan tujuan untuk mengetahui pengaruh penggunaan model pembelajaran LSQ (*Learning Start With a Question*) terhadap hasil belajar siswa pada pembelajaran IPAS dengan materi Indonesia kaya raya kelas V SD Negeri 101771 Tembung Kecamatan Percut Sei Tuan, Kab. Deli Serdang T.A 2023/2024. Jenis penelitian yang dilakukan menggunakan metode Quasi Eksperimen, dengan objek penelitian Pengaruh Model Pembelajaran LSQ (X) terhadap hasil belajar (Y). Peneliti mengambil 2 sampel kelas untuk dijadikan kelas eksperimen dan kelas kontrol yang berjumlah 62 siswa. Kelas VA yang merupakan kelas kontrol berjumlah 30 siswa dan kelas VB yang merupakan kelas eksperimen berjumlah 32 siswa. Teknik analisis data yang digunakan yaitu uji normalitas, homogenitas dan hipotesis. Hasil penelitian menunjukkan bahwa terdapat peningkatan rata-rata sebesar 44,63 di kelas eksperimen dan sebesar 29,82 di kelas kontrol. Berdasarkan hasil uji paired samples test di atas terlihat angka Sig. (2_{tailed}) $0,000 < 0,05$, sehingga sesuai dasar untuk mengambil keputusan uji paired samples test dinyatakan H_0 ditolak serta H_a diterima. Maka dikatakan ada beda signifikan angka perlakuan/*treatmeant* (memakai model pembelajaran *Problem Solving*) dengan nilai sesudah perlakuan/*treatmeant* (menggunakan model LSQ). Mengacu pada dasar mengambil keputusan dari nilai t_{hitung} dengan t_{tabel} yang dibandingkan, disimpulkan bahwa H_0 ditolak serta H_a diterima, ada perbedaan rerata hasil belajar siswa kelas kontrol serta kelas eksperimen, atau dikatakan “Terdapat pengaruh yang signifikan pada model pembelajaran LSQ (*Learning Start With A Question*) terhadap hasil belajar peserta didik pada mata pelajaran IPAS siswa kelas V SD Negeri 101771 Tembung”.

Kata Kunci : Model Pembelajaran *Learning Star With A Question* (LSQ)

ABSTRACT

AGNES JENITA GINTING. The Effect of Star With A Question (LSQ) Learning Model on Student Learning Outcomes in Social Studies Learning with the Material of Indonesia Kaya Raya in Class V of SDN 101771 Tembung Academic Year 2023/2024. Skripsi. Medan: Faculty of Education. Universitas Negeri Medan. 2024.

This study was conducted with the aim of determining the effect of using the LSQ (Learning Start With a Question) learning model on student learning outcomes in social studies learning with the material of Indonesia kaya raya in class V of SDN 101771 Tembung, Percut Sei Tuan District, Deli Serdang Regency Academic Year 2023/2024. The type of research conducted using the Quasi Experiment method, with the research object of the Effect of the LSQ Learning Model (X) on learning outcomes (Y). The researcher took 2 class samples to be used as experimental classes and control classes totaling 62 students. Class VA which is the control class has 30 students and class VB which is the experimental class has 32 students. The data analysis techniques used were normality, homogeneity and hypothesis tests. The results showed that there was an average increase of 44.63 in the experimental class and 29.82 in the control class. Based on the results of the paired samples test above, the Sig. (2_{tailed}) 0.000 < 0.05, so according to the basis for making a decision on the paired samples test, H₀ is rejected and H_a is accepted. So it is said that there is a significant difference in the treatment/treatment numbers (using the Problem Solving learning model) with the value after the treatment/treatment (using the LSQ model). Referring to the basis for making decisions from the t_{count} value with the t_{table} that is compared, it is concluded that H₀ is rejected and H_a is accepted, there is a difference in the average learning outcomes of students in the control class and the experimental class, or it is said "There is a significant influence on the LSQ (Learning Start With A Question) learning model on the learning outcomes of students in the subject of science for grade V students of SD Negeri 101771 Tembung".
