## B. Suggestions

Based on the research result regarding the analysis eight grade in MTs Negeri 2 Medan of students' perceptions that has been describes, the suggestions for this research can be conveyed as follows:

### 1. For teacher

For teacher, teacher need to explore in using various kinds of media for teaching and learning process. especially English animated movie because English animated movie is a media that can be useful for teachers in providing material to students, in addition to using various kinds of media, teachers must also know how students view when the media is applied to several subjects. There may be some differences between students' views on the media used, therefore teachers must use any media in teaching and learning process.

### 2. For student

For the student, in teaching and learning process students must have the courage to express their views on the media used by the teacher so that the teacher can know what media is suitable for use in learning, especially in listening recount text.

### 3. For further researchers

For further researchers, this thesis is the result of research analysis of students' perceptions' of using English animated films in listening to recount text. This thesis is expected to be contribution, especially for future researchers, to be used as a research reference.
