

ACKNOWLEDGEMENT

Praise and thankful to Allah SWT, for all His grace and blessing that provides health and wisdom to writer, so this study can be done well and accordance with the planned time. Title of thesis is “*The Effectiveness Problem Based Learning (PBL) Model Based on Lesson Study Using eXe-Learning Media Toward Motivation and Student Learning Outcomes in Redox Topic.*”

This thesis arranged to obtain the degree of Magister Education in Chemistry Education Programmed, Post Graduate School, State University of Medan (UNIMED). In this opportunity, the writer would like to express the greatest thanks to:

1. Sir Prof. Dr. Syawal Gultom, M.Pd, as a Rector State University of Medan.
2. Sir Prof. Dr. Bornok Sinaga, M.Pd, as Director of Post Graduate School.
3. Sir Prof. Dr. Ramlan Silaban, M.Si, as Head of Chemistry Education Programmed and examiners counselor, advices, suggestion, guidance and constructive comment in process of completing this thesis.
4. Sir Dr. Mahmud, M.Sc as secretary in Chemistry Education Programmed and supervisor that give valuable time spent in giving guidance, advices, motivation and suggestion during the completing this thesis process.
5. Mom Prof. Dr. Retno Dwi Suyanti, M.Si as thesis supervisor II that give valuable time spent in giving guidance, advices, motivation and suggestion during the completing this thesis process.
6. Sir Dr. Ajad Sudrajat, M.Si as examiner counselor and validation of instrument test for this thesis that give advices, suggestion, guidance and constructive comment in completing of thesis process.
7. Mom Dr. Nurfajriani, M.Si as examiner counselor for advices, suggestion, guidance and constructive comment in completing of this thesis process.
8. Sir Sofyan Siregar, S.Ag as principle of SMA Swasta Al-Ulum Medan.
9. Sir Dani Wahyudi, S.Pd as chemistry teacher in SMA Swasta Al-Ulum that give permit, suggestion, and motivation.

10. Specially, for my lovely father Hasan Basri Siregar and lovely mother Rosmilan Rangkuti, thank you so much to them that never forget from heart, that always become inspiration, suggestion, spirit and motivation, that give love with all of heart and soul, strong and stiff to pass the life, they acquiesce in giving the happiness for writer and always pray writer in every time.
11. And also thanks to my beloved brother Rizky Kurniawan & Syafitrah that give spirit and motivation for completing of thesis process.
12. Especially for to Muhammad Zusanri Batubara, S.Pd, M.Si, that give his time, motivation, suggestion, praying and spirit to accompanied and entertained during do the research after this thesis finish.
13. And than thanks to all my friends in Chemistry Post Graduate Programmed for support and also all whose names that can't be mentioned one by one, the writer would say "thanks for everything".

Finally, the writer hopes this thesis would be useful for those who would like to explore more about the learning strategy that suitable to learn Redox Reaction, especially of chemistry education programmed. The writer realizes that thesis is still far from being perfect therefore, critique and suggestion are needed for further improvement of this thesis.

Medan, March 2016
