

LIST OF TABLES

	<i>Page</i>
Table 2. 1. Questions to fire up our critical thinking skills	21
Table 3. 1. Instrument grid of module feasibility for material experts.....	29
Table 3. 2. Alternative answers according to Likert scale.....	30
Table 3. 3. Instrument grid of module feasibility for learning experts.....	30
Table 3. 4. Instrument grid of module feasibility for design experts	31
Table 3. 5. Instrument grid of the response of biology teachers to the module	32
Table 3. 6. Instrument grid of the response of students to the module.....	33
Table 3. 7. Instrument grid of the critical thinking test	33
Table 3. 8. Interpretation of feasibility scores	40
Table 3. 9. Interpretation of attractiveness module score.....	42
Table 3. 10. Classification of critical thinking skill result	42
Table 3. 11 . N-gain Criteria	43
Table 4. 1. Module design	46
Table 4. 2. Average feasibility value of module according to material expert.....	47
Table 4. 3. Module before and after being revised based on the advice of material expert	48
Table 4. 4. Average feasibility value of module according to learning expert.....	50
Table 4. 5. Module before and after being revised based on the advice of learning expert	50
Table 4. 6. Average feasibility value of module according to design expert.....	52
Table 4. 7. Cover Module before and after being revised based on the advice of design expert.	52
Table 4. 8. Average response value of module according to biology teacher	53
Table 4. 9. Average response value of module according to students	53
Table 4. 10. Percentage and category of student test result based on indicators of critical thinking skill	55
Table 4. 11. N-gain Data Normality Test Critical Thinking Skill	55
Table 4. 12. Result of N-Gain Analysis For The Experimental Class And Control Class.....	56
