

## ACKNOWLEDGMENT

All praises and gratitude to Almighty God for giving His grace and gifts, so that I can complete this thesis well. This thesis is prepared to fulfill the requirements needed to achieve a Bachelor of Education degree in the Biology Bilingual Education Study Program, Faculty of Mathematics and Natural Sciences (FMIPA), Medan State University (UNIMED). The preparation of this thesis has gone through the stages of the procedure in accordance with the applicable standards at FMIPA Unimed. This research is intended to develop digital-based comics that can be used as a learning resource on environmental change material in Class X SMA.

First of all, I would like to thank Dr. Ani Sutiani, M.Si. as Dean of the Faculty of Mathematics and Natural Sciences, Khairiza Lubis, S.Si., M.Si., Ph.D., as Head of the Biology Education Department, Dr. Widya Arwita, S.Pd., M.Pd. as Head of the Biology Education Study Program, and Dr. Ely Djulia, M.Pd. as Bilingual Coordinator. To the thesis supervisor, Prof. Dr. rer. nat. Binari Manurung, M.Si. thank you very much for your extraordinary guidance, motivation, and direction to the author from the beginning to the completion of the thesis writing so that this thesis can be completed properly. Drs. Syarifuddin, M.Sc., Ph.D. as Academic Supervisor who has provided support and advice during the author's 4 years of education. To my thesis examiners, Dr. Hasruddin, M.Pd., Ahmad Shafwan S. Pulungan, S.Pd., M.Si., Dr. Widya Arwita, S.Pd., M.Pd., I thank you very much for your direction and suggestions for improvement so that this thesis can be completed properly, as well as all lecturers who have provided motivation and equipped the author with knowledge and experience.

To Dr. Ely Djulia, M.Pd., Prof. Dr. Masdiana Sinambela, M.Si., and Aswarina Nasution, M.Pd. as validators who have corrected, assessed and provided suggestions for improving the digital comics that the author developed. To SMA Negeri 7 Medan for giving permission to conduct this research and Mrs. Ellen Nita Sihombing as the biology teacher and students of class X-3 who have been willing to fill out the questionnaire that the author has compiled.

Especially the author would like to thank my beloved father Toga Sianturi and my beloved mother Masli Siregar who always provide love, support, prayers, moral and material assistance. In particular, the author would like to thank my beloved siblings Juliafika Sianturi, Della Sianturi, Bima Sianturi, and Mangihut Sianturi who always provide encouragement, support, and assistance.

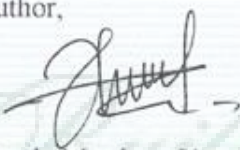

The author would like to thank Zeremya Lumbantobing as a partner who always supports, encourages, gives a lot of love, and accompanies the author under any circumstances.

The author would like to thank Jihan, Fitri, Alna, Octa, Irene, Anjel, Florence as the author's best friends who always support, encourage, and accompany the author under any circumstances. The author also expresses his gratitude to friends in arms, namely colleagues in Bilingual Biology Education class of 2017 who have shared the ups and downs during the learning process. With all humility, once again thank you to all those who have helped the author in completing this research.

The author realizes that the writing of this thesis is still far from perfection. Therefore, I always hope for criticism and suggestions in order to achieve the best thing from this research. The author hopes that this research can provide benefits and increase knowledge from various parties.
