

ABSTRAK

SUCI RAMANDA. Hubungan Antara *Moral Judgment* Tingkat Konvensional Dengan Kecurangan Akademik Siswa di SMA Negeri 1 Tanjung Morawa. Skripsi. Medan: Fakultas Ilmu Pendidikan. Universitas Negeri Medan. 2025.

Penelitian ini bertujuan untuk mengetahui hubungan antara *moral judgment* tingkat konvensional dengan kecurangan akademik siswa di SMA Negeri 1 Tanjung Morawa. Penelitian ini menggunakan jenis penelitian *ex post facto* (korelasi) dengan pendekatan kuantitatif. Sampel pada penelitian ini yaitu siswa kelas X SMA Negeri 1 Tanjung Morawa yang berjumlah 90 siswa dengan teknik pengambilan *purposive sampling*. Pengumpulan data dilakukan dengan menggunakan angket (skala) kecurangan akademik dan instrumen *Defining Issue Test (DIT)*. Analisis data menggunakan teknik korelasi *Product Moment Pearson*. Berdasarkan hasil analisis data menunjukkan adanya hubungan negatif antara *moral judgment* tingkat konvensional dengan kecurangan akademik. Angka nilai koefisien korelasi sebesar -0,415 dengan signifikansi $p = 0,018 < 0,05$. Berdasarkan hasil penelitian, maka hipotesis diterima, artinya semakin tinggi *moral judgment* maka semakin rendah kecurangan akademik siswa di SMA Negeri 1 Tanjung Morawa.

Kata Kunci: Kecurangan Akademik, Hubungan, *Moral Judgment* Tingkat Konvensional

ABSTRACT

SUCI RAMANDA. The Correlation Between Conventional Level Moral Judgment and Academic Cheating of SMA Negeri 1 Tanjung Morawa Students. Skripsi. Medan: Faculty of Education. State University of Medan. 2025.

This study aims to determine the correlation between conventional-level moral judgment and academic cheating of students at SMA Negeri 1 Tanjung Morawa. This study uses ex post facto (correlation) research with a quantitative approach. The sample in this study was class X students of SMA Negeri 1 Tanjung Morawa totaling 90 students with purposive sampling technique. Data collection was carried out using an academic cheating questionnaire (scale) and the Defining Issue Test (DIT) instrument. Data analysis using Pearson's Product Moment correlation technique. Based on the results of the data analysis, there is a negative relationship between conventional-level moral judgment and academic cheating. The correlation coefficient value is -0.415 with a significance of $p = 0.018 < 0.05$. Based on the results of the study, the hypothesis is accepted that the higher the moral judgment, the lower the academic cheating of students at SMA Negeri 1 Tanjung Morawa.

Keywords: Academic Cheating, Correlation, Conventional Level Moral Judgment
