

CHAPTER V

CONCLUSION AND SUGGESTION

5.1. Conclusion

From the research that has been carried out, it is concluded that there was significant effect of the PjBL model on students creative thinking skills on environmental pollution material in class VII SMP Negeri 1 Balige in the even semester of Academic Year 2023/2024.

5.2 Suggestions

Based on the results and conclusions above, the suggestions that researchers can give are as follows:

- 1) The PjBL model needs to better prepare science material, starting from good preparation, understanding the material, and learning time management to increase student effectiveness in its application.
- 2) The PjBL model needs to be analyzed more deeply so that learning based on different science topics is used in teaching to improve the quality of learning activities and learning outcomes.
