

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

The results of the students' perception of online learning in writing skill during pandemic Covid-19. The students say, they had difficulties while learning English because it makes them have to memorize a lot of vocabularies. And the second, through online learning the students writing skill .do not improve because they were lacking in finding references and inspiration. The third,the students did not understand about the material explained by the teacher. Because the teacher only gives assignments to the students and did not provide much explanation about the material learned during the online teaching and learning process. And the last, the students did not get benefit because online learning they did not understand the material that had been explained by the teacher. In addition, the lack of facilities such as smartphone, laptop, internet-network and so on. because during online learning they did not understand the material that had been explained by the teacher. In addition, the lack of facilities such as smartphones, laptops, internet-network and so on.

#### B. Suggestions

1. Teachers were expected to be able to apply effective learning techniques and was supported by adequate infrastructure such as good network, smartphone that support online learning when pandemic Covid-19.

2. Students must increase their knowledge about the online learning process and better understand the use of online learning.
3. The result of this study maybe as a reference for other researcher related to students perception because this research focused on students perception of online learning in writing skill during pandemic Covid-19.
