

ABSTRACT

Siregar, Lailatussyifa. 2183321034. Developing Students' Worksheets for Listening Comprehension of Descriptive Text through Kahoot at Seventh Grade Students in SMPN 1 Pinangsori. A thesis. English Education Program, Faculty Languages and Arts, State University of Medan, 2022.

The objective of this study was to develop students' worksheets for listening comprehension of descriptive text through Kahoot at seventh grade students in SMPN 1 Pinangsori. This study was categorized as Research and Development (R&D) methods that consisting of 6 steps, namely collecting data and information, conducting needs analysis, developing preliminary products, validating with experts, revising, and producing the final products. The subjects in this study were thirty-two seventh graders of SMPN 1 Pinangsori. Students' needs analysis questionnaire and the interview with an English teacher in the classroom are used to obtain results and gather information. And the results showed that the students' worksheets for listening comprehension of descriptive text in the seventh grade students developed through Kahoot were feasible and appropriate. This can be known from the results of experts' validation which produces an average final value of 86.12 percent which is considered very valid based on 5 aspects of assessment, namely linguistic, process, product and content, layout, and technological.

Keywords: Research and Development(R&D), Kahoot, Students' Worksheets, Descriptive Text, Listening Comprehension.
