

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

English teacher used translanguaging in SMPN 27 Medan often used to making the students easy to understand about what the teachers said in the classroom and the students can be able to speaking English easily. Then, the students will be enjoy, fun and interest to study English. This study is to make the student easier to understand what teacher mean/said in front of the classroom. So, the 80% students can easy to understand in communicating when the teacher said from the observation of the teaching and learning process used translanguaging in the classroom by observing the students' responses toward teacher used translanguaging in the classroom.

The conclusion of the study confirm that:

1. The result of study showed that the process of the teachers used translanguaging for communication between teacher and students in the teaching and learning process. The teacher used English as the first language and continued into used Indonesian language. Sometimes, the teacher used translanguaging without translate into Indonesian language, she is only use English. Then, used Indonesian language.
2. The result of study found that the reason of the teachers do use

translanguaging for communication between teacher and students to facilitating in teaching and learning process learning. Based on the data, it is help the students easier to understand the context what the teacher said when learned. Students can be able to speak English well in front of the class. Using translanguaging is very helpful for students and teacher when communication and it can increase new vocabulary the students.

By using translanguaging it can make the students increase their ability in understanding English because the students prefer focusing to use English and Indonesian languages. The important thing in the teaching and learning English is communicate. Teaching and learning English by using translanguaging is a good thing to make students easier to understand to know the meaning of the teacher said.

5.2 Suggestion

The use of translanguaging can be said to be obligation for students in the teaching and learning process. Based on the data and what this ressearch intended to, Researcher suggested that:

1. The teacher should improve their teach using translanguaging because it can help students to understand what the teacher said and to be more active during the teaching learning process. The use of translanguaging can be help teacher and students to realize effective teaching English in the classroom.
2. The students can improve their knowledge and skills. The use of

translanguaging by the teacher, can improve vocabularies to students and make them to more easily to communicate in classroom. Researcher also provided suggestion to students who use this research as references.
