

LIST OF TABLES

Table 2.1 Electron Configuration based Quantum Mechanics Atomic Theory ...	27
Table 2.2 Examples of Antoine Lavoisier's Periodic of Elements Groupings	31
Table 2.3. Difference of Metal and Non Metal according to Antoine Lavoisier .	31
Table 2.4. An example of the Dobereiner Triade grouping	32
Table 2.5. Grouping of Elements according to Newlands' Law of Octaves	32
Table 2.6. Grouping of Elements according to Lothar Meyer's Periodic System	33
Table 2.7. Mendeleev's Periodic System.....	34
Table 3.1. Media validation questionnaire for material experts (BSNP, 2014) ...	42
Table 3.2. Media validation questionnaire for media experts (BSNP, 2014).....	42
Table 3.3. Grid table of student response questionnaire instruments.....	43
Table 3.4. Grid table of student learning interest questionnaire.....	43
Table 3.5. Product feasibility scale.....	45
Table 3.6 Student Interest Assessment.....	45
Table 3.7 Student Response Assessment	45
Table 4.1. Learning Media Development Need Analysis by Interview with one of Chemistry Teacher at SMA Negeri 5 Medan.....	47
Table 4.2. Result of student interest questionnaire in measuring the need for learning media based on Android by Google Form for 33 students.	48
Table 4.3. Core Competencies and Formulation of Achievement Indicators Competence.....	50
Table 4.4. Environmental analysis observation sheet	51
Table 4.5. The results of material feasibility test by material expert validator	56
Table 4.6. The results of media feasibility test by media expert validator.....	57
Table 4.7. Student Response	58
