

ABSTRAK

Ventika Maranata Purba (6213210023) “Peran Sarana Dan Prasarana Terhadap Motivasi Berprestasi Pada Siswa Ekstrakurikuler Sepakbola Sma Negeri 1 Silimakuta” (Pembimbing : dr. Marsal Risfandi, M.Ked)
Skripsi : Fakultas Ilmu Keolahragaan UNIMED 2026

Penelitian ini dilatarbelakangi oleh pentingnya ketersediaan sarana dan prasarana dalam mendukung kegiatan ekstrakurikuler sepakbola di SMA Negeri 1 Silimakuta. Observasi awal menunjukkan ada beberapa kendala seperti kondisi lapangan yang kurang optimal, keterbatasan alat latihan, dan kelengkapan fasilitas yang belum memadai, yang diduga mempengaruhi motivasi berprestasi siswa. Motivasi berprestasi merupakan faktor penting yang mendorong siswa untuk berlatih secara konsisten dan mencapai hasil terbaik dalam bidang olahraga. Penelitian ini bertujuan untuk mengetahui peran sarana dan prasarana terhadap motivasi berprestasi siswa yang mengikuti ekstrakurikuler sepakbola di SMA Negeri 1 Silimakuta.

Penelitian ini menggunakan pendekatan kuantitatif dengan Populasi 28 siswa yang mengikuti ekstrakurikuler sepakbola, yang seluruhnya dijadikan sampel melalui teknik total sampling. Data dikumpulkan melalui angket berupa pernyataan. Instrumen penelitian terdiri dari 20 pernyataan variabel sarana prasarana dan 20 pernyataan variabel motivasi berprestasi, yang telah diuji validitas dan reliabilitasnya menggunakan SPSS dengan hasil *Cronbach's Alpha* sebesar 0,920 dan 0,887.

Hasil penelitian menunjukkan bahwa sarana dan prasarana ekstrakurikuler berada pada kategori baik (mean 16,8) dan motivasi berprestasi siswa berada pada kategori tinggi (mean 17,4). Analisis regresi linier sederhana menunjukkan bahwa sarana dan prasarana berperan positif terhadap motivasi berprestasi siswa. Dengan demikian, semakin baik sarana dan prasarana yang tersedia, semakin tinggi motivasi siswa untuk berprestasi dalam kegiatan ekstrakurikuler sepakbola.

Kata Kunci: Sarana dan Prasarana, Motivasi Berprestasi, Ekstrakurikuler Sepakbola.

ABSTRACT

Ventika Maranata Purba (6213210023) "The Role of Facilities and Infrastructure on Achievement Motivation among Students Participating in Extracurricular Football Activities at SMA Negeri 1 Silimakuta" (Supervisor: dr. Marsal Risfandi, M.Ked)

Thesis: Faculty of Sport Science, UNIMED 2026

This research is motivated by the importance of the availability of facilities and infrastructure in supporting extracurricular football activities at SMA Negeri 1 Silimakuta. Initial observations indicate several obstacles, such as suboptimal field conditions, limited training equipment, and inadequate facilities, which are suspected to affect student achievement motivation. Achievement motivation is an important factor that encourages students to train consistently and achieve optimal results in sports. This study aims to determine the role of facilities and infrastructure on achievement motivation among students participating in extracurricular football activities at SMA Negeri 1 Silimakuta.

This study used a quantitative approach, with a population of 28 students participating in extracurricular soccer activities, all of whom were sampled using a total sampling technique. Data were collected through a questionnaire. The research instrument consisted of 20 statements on infrastructure variables and 20 statements on achievement motivation variables. These statements were tested for validity and reliability using SPSS, with Cronbach's Alpha results of 0.920 and 0.887, respectively.

The results showed that extracurricular facilities and infrastructure were in the good category (mean 16.8) and student achievement motivation was in the high category (mean 17.4). A simple linear regression analysis indicated that facilities and infrastructure positively influenced student achievement motivation. Therefore, the better the facilities and infrastructure, the higher the student's motivation to excel in extracurricular soccer activities.

Keywords: Facilities and Infrastructure, Achievement Motivation, Soccer Extracurricular Activities.
