

ABSTRAK

Miftahul Khairat Julia. 5213142019. “Hubungan Motivasi Belajar dengan Hasil Praktik Makanan Kesempatan Khusus Kelas XII SMK Pariwisata Imelda Medan”. Pendidikan Tata Boga. Pendidikan Kesejahteraan Keluarga. Fakultas Teknik. Universitas Negeri Medan. 2025.

Penelitian ini bertujuan untuk: (1) melihat motivasi belajar siswa kelas XII SMK Pariwisata Imelda Medan. (2) mengetahui hasil praktik makanan kesempatan khusus siswa kelas XII SMK Pariwisata Imelda Medan. (3) mengetahui hubungan motivasi belajar dengan hasil praktik makanan kesempatan khusus siswa kelas XII SMK Pariwisata Imelda Medan. Lokasi penelitian dilaksanakan di SMK Pariwisata Imelda Medan, waktu penelitian Agustus 2025. Populasi dalam penelitian ini seluruh siswa kelas XII Tata Boga. Teknik penentuan sampel secara *Total Sampling* dan jumlah sampel 40 siswa. Teknik pengumpulan data dengan angket untuk motivasi belajar dan lembar penilaian hasil praktik untuk hasil praktik makanan kesempatan khusus. Teknik analisis data secara deskripsi data, uji kecenderungan, dan uji persyaratan analisis dengan uji normalitas dan uji linieritas, serta uji hipotesis dengan uji kolerasi *product moment*.

Hasil penelitian menunjukkan bahwa tingkat kecenderungan motivasi belajar termasuk kategori cenderung cukup sebesar 100 persen. Tingkat kecenderungan hasil praktik makanan kesempatan khusus termasuk kategori tinggi sebesar 72,50 persen. Hasil analisis kolerasi *product moment* terdapat hubungan yang positif dan signifikan antara motivasi belajar dengan hasil praktik makanan kesempatan khusus dengan nilai koefisien kolerasi $r_{xy} = 0,36$ di mana $r_{hitung} > r_{tabel}$ ($0,36 > 0,31$) pada taraf signifikan 5 persen. Artinya, semakin tinggi motivasi belajar siswa, maka semakin tinggi juga hasil praktik makanan kesempatan khusus siswa.

ABSTRACT

Miftahul Khairat Julia. 5213142019. “The Relationship between Learning Motivation and the Result of Special Food Practices in Class XII of SMK Pariwisata Imelda Medan”. Culinary Education. Family Welfare Education. Faculty of Engineering. Medan State University. 2025.

This research aims to: (1) examine the learning motivation of class XII students of SMK Pariwisata Imelda Medan. (2) determine the result of the special food practices of class XII students of SMK Pariwisata Imelda Medan. (3) to know the relationship between learning motivation and the results of special food practices of class XII students of SMK Pariwisata Imelda Medan. The research location was conducted at SMK Pariwisata Imelda Medan, with the research conducted in August 2025. The population in this study consisted of all students in grade XII Culinary Arts. The sampling technique used was Total Sampling with a sample size of 40 students. The data collection technique involved using a questionnaire for learning motivation and evaluating the results of practical work for special food. The data analysis techniques included data description, trend test, and analysis requirement test with normality test and linearity test, as well as hypothesis testing with product moment correlation tests.

The results of the research indicate that the level of learning motivation is generally high at 100 percent. The result of the special food practice are categorized as good with a score of 72,50 percent. The analysis of the product moment correlation shows a positive and significant relationship between learning motivation and the result of special food practice, with a correlation coefficient value $r_{xy} = 0,36$. And the result of $r_{hitung} > r_{tabel}$ ($0,36 > 0,31$) at a significance level of percent. This means that higher the students learning motivation, the higher the result of the students special food practice.
