

FOREWORD

All praise and thanks be to God, the Most Merciful and the Most Compassionate, for His endless grace and blessings that have enabled the author to complete this thesis entitled The Effect of Discovery Learning Model with Interactive Media Genially for Improvement Student's HOTS Literacy Science Skills on Chemical Bonding. This thesis is submitted as a requirement to obtain the Bachelor of Education (S.Pd) degree from the Chemistry Education Study Program, Faculty of Mathematics and Natural Sciences (FMIPA), Universitas Negeri Medan.

The author realizes that the completion of this thesis would not have been possible without the support of various parties, both directly and indirectly. On this occasion, the author would like to express sincere gratitude to all parties who have helped in the completion of this thesis. Special thanks are extended to:

1. Mrs. Dr. Iis Siti Jahro, M.Si, as the thesis supervisor, who has provided extensive assistance and guidance to the author in completing this thesis, from the initial determination of the research title to its final completion.
2. To my beloved Papa and Mama, as well as my dear younger siblings, Dwi and Snell. Thank you for your sincere prayers and unconditional love, for the never-ending support that has become a daily source of strength.
3. Mr. Prof. Asep Wahyu Nugraha, M.Si, Mr. Dr. Marudut Sinaga, M.Si, and Mrs. Elfrida Ginting, S.Si., M.Sc., Ph.D, as thesis examiners, for their valuable input and constructive suggestions from the proposal seminar through the final thesis defense, enabling this thesis to be completed properly.
4. Mrs. Dr. Ratna Sari Dewi, M.Si and Mrs. Mutiara Agustina Nst, M.Pd, as expert validators, who assessed and provided suggestions regarding the test instruments used by the author.
5. Mrs. Deny Sihotang, S.Pd, as the chemistry teacher, who consistently provided direction and guidance to the author, as well as all teachers and students of SMAN 2 Percut Sei Tuan.

6. All lecturers, staff, and employees of the Department of Chemistry, Faculty of Mathematics and Natural Sciences, Universitas Negeri Medan, for their support and assistance throughout the author's academic journey.
7. The author's classmates, CESP 22, thank you for the time spent together, the beautiful memories, and the long journey we shared. Thank you for every meaningful moment that will never be forgotten.
8. To my beloved friends, the Tim Desain: Vincencia, Kezia, Azizah, Amaliah, and Sarah. You are among God's greatest gifts to the author, accompanying and strengthening me throughout my years of study. Thank you for always being there in every situation, for embracing and encouraging me in times of sadness, and for sharing moments of happiness together. Thank you for being true friends who listened to every story, appreciated every achievement, and walked alongside me at every step.
9. To Andini and Cintami, who accompanied me throughout the research process. Thank you for being supportive and motivating friends, enabling this research to run smoothly. Your presence provided guidance during both the research process and the writing of this thesis.
10. Thank you to Keigo-san, Agatha Christie, and other authors whose books accompanied the author during the process of completing this thesis. Their beautiful works provided comfort and relief from exhaustion amid the intense pressure of research, proposal writing, and the completion of this thesis.
11. And thank you to myself for successfully completing this thesis. Thank you for breaking through the walls of fear of loneliness and daring to walk forward without holding onto anyone else's hand. Every achievement up to this day is not merely the result of luck, but of hard work that has been carried all along. Keep moving forward, dreaming as high as possible without fear of falling. The journey ahead is still long and exhausting, yet every fragment of exhaustion and pain gathered thus far will become strength and healing for future challenges. Continue to be yourself, someone who strives to grow and pursue the hopes that lie ahead.

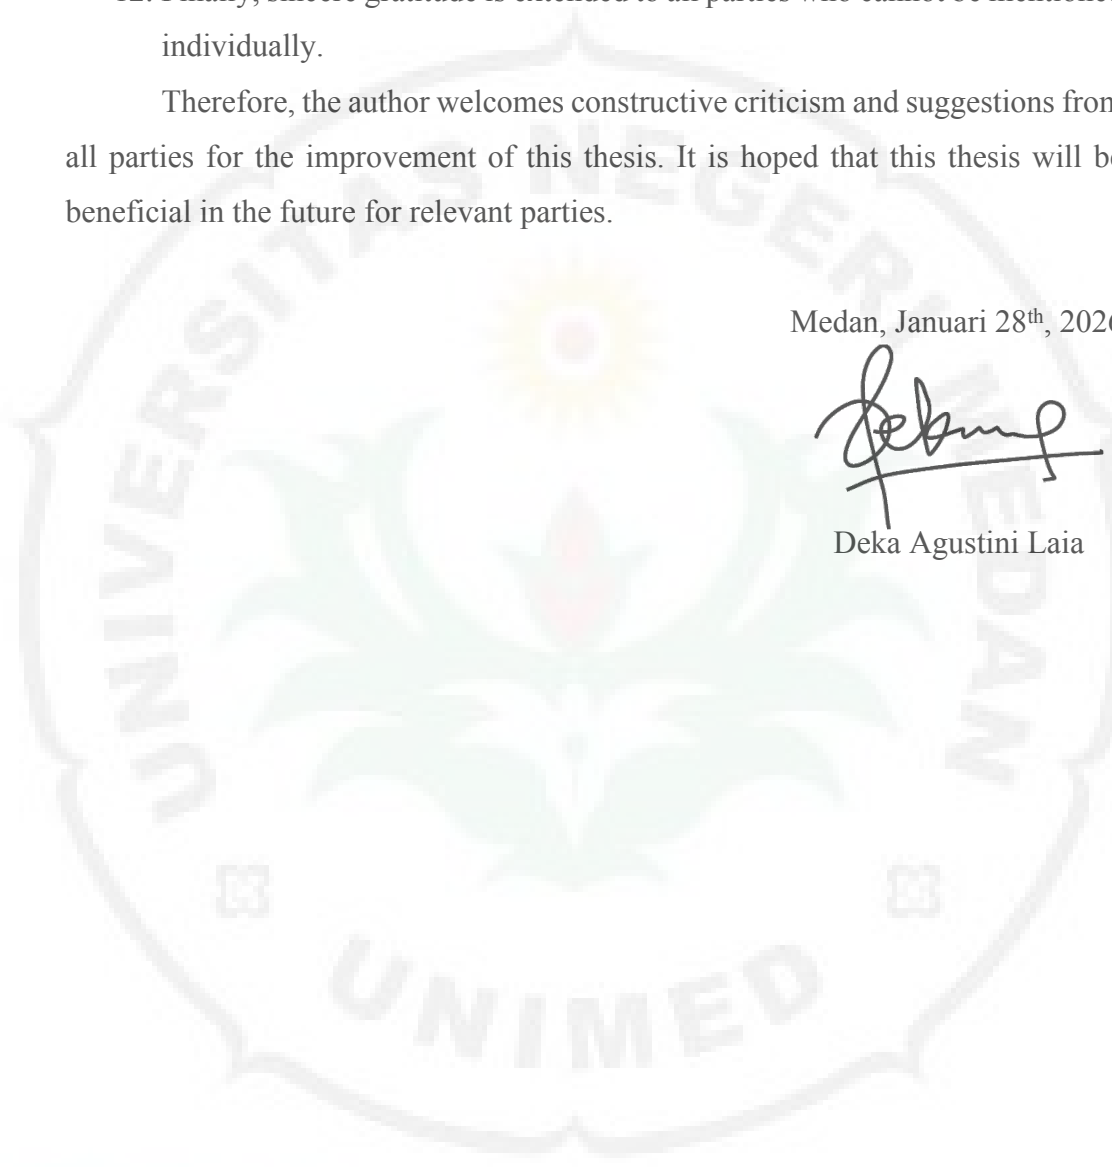

12. Finally, sincere gratitude is extended to all parties who cannot be mentioned individually.

Therefore, the author welcomes constructive criticism and suggestions from all parties for the improvement of this thesis. It is hoped that this thesis will be beneficial in the future for relevant parties.
