

ABSTRAK

Suryana Putri Aruan. NIM. 6202111004. Survei Sarana Dan Prasarana Latihan Atletik Pengprov PASI Sumut Menghadapi PON Aceh-Sumut 2024. Fakultas Ilmu Keolahragaan. Universitas Negeri Medan. Juni 2024.

Pengprov PASI sebagai wadah organisasi yang menaungi para atlet selama bertahun-tahun telah berusaha meningkatkan SDM dan SDA yang ada di Sumatera Utara. Beberapa upaya telah dilakukan, mulai dari pembinaan atlet daerah, Pengembangan Program dan Pemberdayaan SDM yang ada. Juga pengembangan terhadap sarana dan prasarana olahraga untuk memenuhi kebutuhan latihan atletik bagi para atlet dalam mempersiapkan diri mengikuti PON Aceh-SUMUT 2024. Adapun tujuan dari penelitian ini yaitu untuk mengetahui kondisi sarana dan prasarana latihan atletik Pengprov PASI Sumut menghadapi PON Aceh-Sumut 2024. Penelitian ini dilakukan dengan metode survei dengan pendekatan deskriptif kuantitatif. Pengumpulan data dalam penelitian ini menggunakan teknik observasi. Hasil penelitian diperoleh rata-rata kelayakan sarana dan prasarana sebesar 79,31% yang berarti sarana dan prasarana latihan atletik Pengprov PASI Sumut pada kategori baik. Namun ada beberapa prasarana yang perlu diperhatikan dalam perawatan seperti lapangan yang tertannya dalam kondisi rusak.

ABSTRACT

Suryana Putri Aruan. NIM. 6202111004. Survey of Athletic Training Facilities and Infrastructure for the North Sumatra PASI Provincial Government Facing the 2024 Aceh-North Sumatra PON. Faculty of Sports Science. Medan State University. June 2024.

Pengprov PASI as an organizational forum that houses athletes has been trying to improve human resources and natural resources in North Sumatra for many years. Several efforts have been made, starting from coaching regional athletes, developing programs and empowering existing human resources. Also developing sports facilities and infrastructure to meet the athletic training needs of athletes in preparing to take part in the 2024 Aceh-North Sumatra PON. The aim of this research is to determine the condition of the North Sumatra PASI Provincial Pengprov's athletic training facilities and infrastructure for the 2024 Aceh-North Sumatra PON. This research was conducted using a survey method with a quantitative descriptive approach. Data collection in this study used observation techniques. The results of the research obtained an average suitability of facilities and infrastructure of 79.31%, which means that the North Sumatra PASI Pengprov athletic training facilities and infrastructure are in the good category. However, there are several infrastructures that need attention in maintenance, such as fields whose tartans are in a damaged condition.
