Penelitian ini bertujuan untuk mengetahui efektivitas program penguatan karakter melalui modul proyek Bangunlah Jiwa dan Raganya dalam membentuk perilaku siswa anti-bullying di SMP Swasta Methodist 7 Medan. Fokus penelitian ini adalah pemahaman siswa terhadap nilai-nilai Profil Pelajar Pancasila (P5) dalam konteks anti-bullying, yang dilihat dari pemahaman konsep bullying, sikap empati, serta perilaku sosial siswa dalam kehidupan sehari-hari. Penelitian ini menggunakan pendekatan kualitatif dengan metode deskriptif. Teknik pengumpulan data meliputi observasi, wawancara, dan dokumentasi. Pemahaman siswa dianalisis melalui hasil wawancara, refleksi kegiatan proyek, serta perubahan perilaku siswa selama pelaksanaan modul, kemudian dianalisis melalui tahapan reduksi data, penyajian data, dan penarikan kesimpulan. Hasil penelitian menunjukkan bahwa program P5 melalui modul proyek Bangunlah Jiwa dan Raganya mampu meningkatkan pemahaman dan kesadaran siswa terhadap perilaku anti-bullying, yang ditunjukkan melalui sikap empati, kepedulian sosial, dan keberanian menolak tindakan perundungan. Dengan demikian, program ini memberikan kontribusi positif dalam upaya pencegahan bullying di lingkungan sekolah.

ABSTRACT

Anjelina Pasaribu, NIM. 3213311030 "Character Strengthening Program Through the Project Module Build Body and Soul Against Anti-Bullying Student Behavior at Medan 7 Private Methodist Middle School". Department of Pancasila and Citizenship Education, Faculty of Social Sciences, Medan State University.

This research aims to determine the effectiveness of the character strengthening program through the Build Your Body and Soul project module in shaping student anti-bullying behavior at the Medan 7 Methodist Private Middle School. The focus of this research is students' understanding of the values of the Pancasila Student Profile (P5) in the context of anti-bullying, which can be seen from understanding the concept of bullying, empathetic attitudes, and students' social behavior in everyday life. This research uses a qualitative approach with descriptive methods. Data collection techniques include observation, interviews and documentation. Student understanding is analyzed through the results of interviews, reflections on project activities, as well as changes in student behavior during the implementation of the module, then analyzed through the stages of data reduction, data presentation, and drawing conclusions. The results of the research show that the P5 program through the Build Your Body and Soul project module is able to increase students' understanding and awareness of anti-bullying behavior, which is demonstrated through empathy, social concern, and courage to reject bullying. Thus, this program makes a positive contribution to efforts to prevent bullying in the school environment.
