

ABSTRAK

Yusnia Rani, NIM 5193343022, Analisis Hasil Menggambar Busana Pesta Menggunakan Aplikasi Ibis Paint X Pada Siswa Kelas X Smk Swasta Citra Harapan Jaya Medan. Skripsi. Program Studi Pendidikan Tata Busana, Jurusan Pendidikan Kesejahteraan Keluarga, Fakultas Teknik, Universitas Negeri Medan. 2026.

Penelitian ini dilatarbelakangi oleh penemuan hasil observasi yang dilakukan peneliti dengan salah satu guru yang mengajar pada mata pelajaran dasar-dasar busana kelas X di SMK Swasta Citra Harapan Jaya Medan terdapat banyak peserta didik belum mampu mengimplementasikan desain dan detail ke anatomi tubuh, mencampur warna, dan membuat desain teknis secara digital. Sehingga dilakukan pengujian untuk mengukur kemampuan siswa dalam menggambar busana khususnya busana pesta secara digital melalui media aplikasi Ibis Paint X.

Metode penelitian yang digunakan adalah metode penelitian deskriptif, dengan sampel penelitian terdiri atas 30 orang siswa kelas X di SMK Swasta Citra Harapan Jaya Medan. Instrumen pengumpulan data berupa lembar pengamatan yang menilai aspek tema, unsur, dan prinsip desain. Kemudian angket tersebut akan divalidasi oleh dosen pengamat penelitian dan dianalisis secara statistik deskriptif.

Hasil penelitian menunjukkan bahwa sebanyak 11 gambar (37%) dengan kategori sangat baik dan nilai terendah hanya 21 poin pada indikator garis arsir, 8 gambar (27%) dengan kategori baik dan nilai terendah mencapai 15 poin pada indikator garis kupnat, 4 gambar (13%) dengan kategori cukup baik dan nilai terendah yaitu 14 poin pada indikator garis arsir, dan 7 gambar (23%) dengan kategori tidak baik dan nilai terendah mencapai 7 poin pada indikator garis kupnat. Demikian dapat ditarik kesimpulan bahwa presentasi hasil kemampuan siswa dalam menggambar busana pesta menggunakan aplikasi Ibis Paint X pada siswa kelas X di SMK Swasta Citra Harapan Jaya Medan adalah sangat baik meskipun ada beberapa hal yang perlu diperhatikan dan diperbaiki demi memaksimalkan hasil gambar busana peserta didik.

Kata Kunci : Kemampuan Menggambar, Busana Pesta, Aplikasi Ibis Paint X.

ABSTRACT

Yusnia Rani, NIM 5193343022, *Analysis of the Results of Drawing Party Attire Using the Ibis Paint X Application on Grade X Students of SMK Swasta Citra Harapan Jaya Medan*. Thesis. Fashion Education Study Program, Department of Family Welfare Education, Faculty of Engineering, Universitas Negeri Medan. 2026.

This research was motivated by the findings of observations conducted by the researcher with one of the teachers teaching the basic fashion subject for grade X at SMK Swasta Citra Harapan Jaya Medan. Many students were still unable to implement design and details onto body anatomy, mix colors, and create technical designs digitally. Therefore, a test was conducted to measure students' ability to draw attire, especially party attire, digitally through the Ibis Paint X application.

The research method used was a descriptive research method, with the research sample consisting of 30 grade X students at SMK Swasta Citra Harapan Jaya Medan. The data collection instrument was an observation sheet that assessed aspects of theme, elements, and design principles. The questionnaire was then validated by 6 expert observers and analyzed using descriptive statistics.

The research results showed that 11 drawings (37%) were in the very good category with the lowest score being 21 points on the shading line indicator, 8 drawings (27%) in the good category with the lowest score reaching 15 points on the contour line indicator, 4 drawings (13%) in the fairly good category with the lowest score being 14 points on the shading line indicator, and 7 drawings (23%) in the not good category with the lowest score reaching 7 points on the contour line indicator. Thus, it can be concluded that the presentation of the results of students' ability to draw party attire using the Ibis Paint X application for grade X students at SMK Swasta Citra Harapan Jaya Medan was very good, although there were several things that needed attention and improvement in order to maximize the students' fashion drawing results.

Keywords : Drawing Ability, Party Attire, Ibis Paint X Application.
