ABSTRACT

DEVI NATALIA HUTAGALUNG. The Role of Trainers in Fish Processing Training for School Dropouts in the Belawan Fishing Village. Skripsi. Medan: Faculty of Education, State University of Medan 2026.

This study aims to describe the role of trainers in fish processing training for school dropouts in the Serdang Fishermen's Village (Kampung Nelayan Serbang) LK-12, Belawan I. The research focuses on the trainers' roles as educators, facilitators, motivators, and mentors. This training is a form of non-formal education designed to equip school dropouts with skills that can be utilized to improve their well-being and create business opportunities. The study employs a qualitative approach with a descriptive research design. The research subjects consisted of six individuals: 2 trainers, 1 training manageand, 3 school dropouts participating in the training. Data were collected through observation, interviews, and documentation, and subsequently analyzed using data reduction, data presentation, and conclusion drawing. Data validity was verified through source triangulation and technique triangulation. The results indicate that the trainers performed their roles effectively. As educators, the trainers imparted fish processing knowledge and skills through both theory and practice. As facilitators, they provided the necessary tools, materials, and a supportive learning environment. As motivators, they offered encouragement and fostered enthusiasm among the participants. As mentors, they guided participants throughout the training process and assisted in overcoming challenges. These roles helped participants enhance their skills and boosted their motivation to engage in entrepreneurship. In conclusion, the trainers played a crucial role in the success of the fish processing training for school dropouts in the Serbang Fishermen's Village (Kampung Nelayan Serbang) LK-12, Belawan I, by fulfilling the roles of educator, facilitator, motivator, and mentor.
