

ACKNOWLEDGEMENT

First and foremost, I would like to praise and thank God, the almighty, who has granted countless blessing, knowledge, and opportunity to the writer, so that I have been finally able to accomplish the thesis.

Apart from the efforts of me, the success of this thesis depends largely on the encouragement and guidelines of many others. I take this opportunity to express my gratitude to the people who have been instrumental in the successful completion of this thesis.

The writer hardly knows where to start expressing the gratitude but for sure the gratitude goes to all those who have assisted her in the process of completing this thesis. It would be impossible to list all names but several people deserve her sincere and special thanks.

I would like to show my greatest appreciation to Syarifuddin, M.Sc.,Ph.D as the thesis supervisor. I can't say thank you enough for her tremendous support and help. I feel motivated and encouraged every time I attend her meeting. Without her encouragement and guidance this thesis would not have materialized.

She gratefully acknowledges the deepest gratitude to Drs. Tri Harsono, M.Si., the head of Biology Department, Prof. Dr. Herbert Sipahutar M.Si., M.Sc., the coordinator of Bilingual Program, and Mr. Samsuddin for his administrative assistance.

Her enormous appreciation is addressed to Prof.Dr.Herbert Sipahutar, M.Si., M.Sc., Dra. Martina Restuati, M.Si., and Drs. H.Syahmi Edy, M.Si as her examiners, for the valuable inputs to be included in this thesis and generously spent precious time in giving the guidance, encouragement, suggestion, and comments for this thesis.

The writer gratefully acknowledges the deepest gratitude to Drs. Nusyirwan, M.Si., as the Academic Advisor.

She is indebted to Dr. Hasruddin, M.Pd as evaluator for her research instruments, for their constructive comments and suggestion for the improvement of this study.

She also in enormous intellectual debt to all lecturers of Biology Education Bilingual Program, who has become her inspiration during the academic years and also during the completion of this thesis.

Special thanks are extended to Alberto Colia, M.Pd., headmaster of SMA Negeri 1 Berastagi, Biology teacher of grade eleven science class, Drs. Florida Ginting for the cooperation during research. I am grateful for his constant support and help.

Finally, she will forever be indebted to her beloved parents Selamat Purba Siboro and Bungarum Manjorang., for having given her unfailing support and encouragement during the academic year and the completion of this thesis, her lovely sister and brother, Deli Siboro and husband J.O Sijabat, Lidia Siboro and Junviter Siboro and wife M.Siahaan, Yoas Siboro for always trying to keep her on track whenever and whatever problems she have to overcome. And special thank for my niece and nephew Angel Sijabat, Ebigael Sijabat, Belvi Siboro, Gisel Siboro and Martchel Sijabat.

Last but not least, the guidance and support received from all her best friend Uci, Aisyah, Winny, Kristina, Meti, Keasy, Siti, Debora, Dewi Sartika and all friends from Biology Bilingual Program Year 2008 for their friendship and cooperation. It would be difficult to find adequate words to convey how much she owes the people. Lots of love and thank to all of you.

The writer has tried to finish this thesis as good as possible, but she is aware there are still many weaknesses of both content and grammar of this thesis. Hopefully, this thesis would be useful to the reader.

God Bless us

January 2013

The Writer

Sri Lestari Siboro
