

FOREWORD

First of all, I would like to thank God Almighty for His Blessing and chance for me so I able to finish my study and complete my Thesis which the title is “ The Difference of Student’s Learning Outcomes on Algebra Using Cooperative Learning Model of Group Investigation (GI) and Using Student Team Achievement Division (STAD)” in order to fullfill one of the requirements to obtain a Sarjana Pendidikan at the Mathematics Department in Bilingual Mathematics Education class , Faculty of Mathematics and Natural Science in State University of Medan.

I realize that to do and complete this all isn’t an easy work, there are many challenge and problems which is faced. But , There are many people such as family, friends, lecturer, staff and others who help me to do that all , motivate me as long as in doing and finishing my study. I also would like to say thanks to all of them.

My special thanks for Dr.Esther Nababan, M.Sc as my Thesis Supervisor who has given me her advice, motivations, instructions, ideas, suggestions and time to me in finishing my thesis. Then, I also say thanks for my Academic Supervisor Dr.Drs.W.Rajagukguk, M.Pd for his advices,suggestions,motivations from the beginning untill finishing my study. I would like to say thanks too for Prof.Dian Armanto,M.Pd,M.A,M.Sc,Ph.D, for Prof.Dr.P.Siagian,M.Pd, for Prof.Dr.Mukhtar,M.Pd as my thesis examiners for their willingness to correct and complete this thesis. I also say thanks for Prof. Dr.Mukhtar, M.Pd as the chairman of mathematics Department, Drs.Syafari,M.Pd as laeader of mathematics Education Study program, Drs.Yasifati Hia, M.Si as Secretary of mathematics department and Prof.Dr.Herbert Sipahutar,M.sc as the coordinator of Bilingual class, Prof.Drs.Motlan, M.Sc,Ph.D as Dean of mathematics and natural Science faculty and Prof.Dr.Ibnu Hajar Damanik,S.Pd,M.Si as Rector of State University of Medan.

My special thanks for all of my lecturer in mathematics department and the staff who help me in giving knowledge, motivation and suggestions to finish my study. Then, I also would like to say thanks for Drs.H.Ahmad Siregar as the headmaster of SMPN 1 Medan and Anita Nilam S Silalahi as the mathematics teacher at SMPN 1 Medan, all of teacher and staff in SMPN 1 Medan who help me in doing and finishing my research.

Special thanks for my lovely parents, J. Banjarnahor and R.Siagian and also my beloved brother and sister Erpina Banjarnahor S.Pd and Her Husband S.Sitompul S.Pd, Febri Gilberd Banjarnahor, Lely Handayani Banjarnahor who always give me prays, motivations,advices,loves and supports so I able to finish my study and this thesis.

Special thanks for my best friends “SERAPHIM” (Blessing G. Hutagaol, Janna Sri Bina Br Barus, Putri Welpha Hutajulu) and Brother Rustam Efendi Simamora for their love,pray,support and friendship. Special thanks to “Tusam Family” (Efrida Fitri, Farah Diba,Yenni Khairina, Desri , Winny, Rizky and Kakak Poppy) for their support, love,pray and friendship. I also say thanks for Eva Puspita, Siti Rafiah,Misna Fitriani and all of my beloved friends in Mathematics Bilingual class 2008 for their support,,spirit, help and kindness during my study in state University of Medan. May God bless them all.

Writer realize that there are also many weaknesses and insufficiency in this thesis, for that writer hopes suggestion and critic in making this thesis better. Writer hopes this thesis will give advantage for reader and the world of education.
