

## ACKNOWLEDGEMENT

First of all, the writer would like to Thanks God for His Love and mercy for blessing hence writer is able to finish this thesis with title “The effect of predict explain observe strategy (POE) on students’ activity and learning outcome on human respiratory system sub topic in grade XII science program at SMA Negeri 15 Medan academic year 2013/2014”. This Thesis is aimed to fulfill the requirement for the degree of Sarjana Pendidikan at Biology Department, Faculty of Mathematics and Natural Science, State University of Medan.

During the process of writing the thesis, the writer realized that he had many mistaken. Meanwhile, he has been given some suggestions, comments, academic guidance, and moral support from his consultant and others that he would like to express his sincere thanks.

The writer would like to express his great gratitude to Dr. Syahmi Edi, M.Si as his consultant for his generous assistance, guidance, advices and valuable time to read and discuss the thesis until it is completed. The writer also would like thank profusely to Prof. Drs. Motlan, M.Sc, Ph.D., as dean of the Faculty of Mathematics and Natural Science, State University of Medan. Prof. Dr. Herbert Sipahutar ,M.Sc., Drs. Martina Napitupulu., Drs.Tri Harsono, M.Si as the lecturer team examiners for their suggestion and constructive criticisms for the revision of this thesis and for Syarifuddin, M.Sc, Ph.D as his academic supervisor who has guided the writer during academic program.

My never ending thankfulness is fully to my beloved father Surman Simanjuntak and my mother Marince for their everlasting love, hopeful prayers in his life, and the entire moral and the financial support that have enabled his to finish his study. His special thanks and admiration are also due to his sisters and brother, Sari Simanjuntak, Mery V Simanjuntak, Ira Simanjuntak, and the last Mario Simanjuntak. Thanks to all sisters and brothers in boarding house at Pardamean street 15C and all family, friends are also undeniable.

The writer also thanks to the headmaster of SMA Negeri 15 Medan, Drs. Darwin Siregar, M.Pd and Biology teacher Mam Asil Sembiring S.Pd., and all the

teachers and student especially XI-2, XI-4 academic year 2013/2014 in SMA Negeri 15 Medan who received the presence of the writer during research in these classes.

And for all my friends in class Biology Bilingual Education 2010 who show me the meaning of friendship. Especially for my friends, the writer would like thank to Dewi Mentari, for her time and support as writer for suggestion and constructive criticisms examiners team in proposal seminar of this research, and Shelly Eka Putri that help me to accomplish this thesis especially in documented of the research in SMA Negeri Medan and writer would also like to thank Hastika Juliani for her support and help me to make a graph of this research by systat program. And not forget for my special friends Evy Verawati (MyBeBi) thank for your support, your caring and help me to accomplish this thesis.

The writer has put all efforts and time in the completion of this thesis, but the writer is aware there are still many weaknesses in terms of content and grammar therefore the writer is pleased to receive some suggestions and constructive criticism from readers for the thesis being perfect. Any suggestion for the improvements in the future will be highly appreciated.

Medan, June 2014
