

## ACKNOWLEDGMENT

Praise and gratitude to Almighty God for blessing and grace that is given to the writer so that the writer can finish the study well and accordance with the time planned.

The title of this thesis is “The Development of Interactive Learning Module By Using problem Based Learning (PBL) To Increase Student Achievement as Cognitive Aspect and Student Independence in Teaching of Salt Hydrolysis Topic,” that arranged to obtain the degree of Sarjana Pendidikan in Chemistry Department, Faculty of Mathematics and Natural Sciences, State University of Medan (UNIMED). In this opportunity the writer would like to express the greatest thankful to :Prof. Dr. Ramlan Silaban, M.Si, as the thesis supervisor, thanks for his spent time in giving direction and guidance, motivation and suggestion during the fulfillment process of this thesis. Prof.Drs Ibnu Hajar, M.Si as a rector of State University of Medan. Prof.Drs. Manihar Situmorang, M.Si, Dr. Retno Dwi Suyanti, M.Si, and Drs. Wesly Hutabarat, M.Sc as an examiners of this thesis, thanks for advices, suggestions, and constructive comment in the fulfillment process of this thesis. Prof. Motlan, M.Sc., Ph.D., as the Dean of Mathematics and Natural Science, State University of Medan. Prof. Dr. Binari Manurung, as the coordinator of Bilingual Department, for their spent time in administrative business. Dr. Retno Dwi Suyanti, M.Si, as the validator of instrument test and validator of the module. Dra. Ani Sutiani, M.Si as the validator of the media. Drs. Jamalum Purba, M.Si as the writer’s academic supervisor. The principle in SMA N 1 Sunggal, SMA N 1 Percut Sei Tuan, and SMA Swt Dharma Bakti for giving the permission in doing research, giving suggestion and motivation. All chemistry lecturer who has provided knowledge and guidance to the author for being in the lecture. Speciall thanks for beloved parents, for their love with all of hearth and soul, for their pray, for their time in giving motivation, suggestion, inspiration, and spirit during the lecture, they are lovely father M. Gultom and lovely mother S. Doloksaribu. and thanks for my brothers ( Hendrikus R. Bonaventura Gultom & Jupenalis Gultom), my sisters

(Fransiska Gultom & Friska N.Tarigan) and also my nephews (Patricia Gultom & Jeremia Gultom) thanks for their love and their concern during this lecture. Thanks to special man Martua Lumban Gaol, S.Pd thanks to his time, motivation, suggestion, support and praying during the arrangement of this thesis. Thanks to my beloved friends (Santhy A.V Pinem, Ika Ulansari, Nurul Wahidah Nst, Ervi Lutfhi Sheila W.Lubis & Sri Rahmania), thanks for their support, motivation, and solidarity until finishing this thesis. Thank to my friends in Bilingual Chemistry Education '10, thanks for our good cooperation during the lecture. Thanks for all whose names that can't be mentioned one by one, the writer say thanks for everyting.
