

TABLES LIST

	Page
Table 2.1 Comparison properties of Solutions, Colloids, and Suspensions	16
Table 2.2 Comparison of Colloidal Systems	18
Table 3.1 Research Treatment (Two classes, Pretest, and Post test)	31
Table 3.2 Instrument Specification	35
Table 4.1 The Result of Analysis of Book Code A on Topic Colloidal System	45
Table 4.2 The Result of Analysis of Book Code B on Topic Colloidal System	47
Table 4.3 The Result of Analysis of Book Code C on Topic Colloidal System	49
Table 4.4 The Result of Analysis of Book Code D on Topic Colloidal System	51
Table 4.5 The Average Score of Content, Extension, Depth, Design, and Language of Chemistry Textbook that has been analyzed	53
Table 4.6 The Result of Questionnaire Interactive Learning Module Standardization by Chemistry Lecturer, Teachers, and Students	54
Table 4.7 Average, Standard Deviation, Minimum and Maximum Score of Pretest Data	59
Table 4.8 Average, Standard Deviation, Minimum and Maximum Score of Posttest Data	59
Table 4.9 Average, Standard Deviation, Minimum and Maximum Score of Gain Data	59
Table 4.10 Average, Standard Deviation, Minimum and Maximum Score of Student's Creativity Data	60

Table 4.11	Result of Normality Test (Using SPSS-15)	60
Table 4.12	Result of Normality Test (Using Chi-Square)	61
Table 4.13	Result of Homogeneity Test (Using SPSS-15)	62
Table 4.14	Result of Normality Test (Comparing with F_{table})	62
Table 4.15	Result of First Hypothesis Test	64
Table 4.16	T-test Based on Student's Gain in Experiment and Control Class	64
Table 4.17	Result of Second Hypothesis Test	65
Table 4.18	T-test Based on Student's Gain in Experiment and Control Class	66
Table 4.19	Result of Third Hypothesis Test (Regression Linearity)	67
Table 4.20	Result of Third Hypothesis Test (Correlation Test using SPSS-15)	67
Table 4.21	Table category of gain in experimental and control class	68
