

LIST OF TABLE

		Page
Table 2.1	Criteria of Students' Initial Ability	25
Table 3.1	Criteria of Observation Sheet	39
Table 3.2	Criteria of Students' Responses	40
Table 3.3	Criteria of Students' Mathematical Communication Ability	40
Table 3.4	Criteria of Interpretation Normalized Gain	42
Table 4.1	Schedule of Mathematics Learning in Class XI Science 1	45
Table 4.2	The Percentage of Students' Math Communication Ability in Expressing Mathematical Description into Math Model Test I	48
Table 4.3	The Percentage of Creating Mathematical Model Through Diagram, Graph, or Table Test I	48
Table 4.4	The Percentage of Explaining Mathematical Model and Doing Calculation Test I	49
Table 4.5	The Percentage of Students' Mathematical Communication Ability Test I	50
Table 4.6	Analysis Result of Students' Difficulties in Answering Questions	51
Table 4.7	The Percentage of Students' Math Communication Ability in Expressing Math Description into Math Model Test II	55
Table 4.8	The Percentage of Creating Mathematical Model Through Diagram, Graph, or Table Test II	55
Table 4.9	The Percentage of Explaining Mathematical Model and Doing Calculation Test II	56
Table 4.10	The Percentage of Students' Mathematical Communication Ability Test II	57
Table 4.11	Analysis Result of Students' Difficulties in Answering Questions	58
Table 4.12	The Percentage of Students' Math Communication Ability in Expressing Math Description into Math Model Test III	61
Table 4.13	The Percentage of Creating Mathematical Model Through Diagram, Graph, or Table Test III	62
Table 4.14	The Percentage of Explaining Mathematical Model and	

	Doing Calculation Test III	62
Table 4.15	The Percentage of Students' Mathematical Communication Ability Test III	63
Table 4.16	Analysis Result of Students' Difficulties in Answering Questions	65
Table 4.17	The Percentage of Students' Math Communication Ability in Expressing Math Description into Math Model Cycle I	67
Table 4.18	The Percentage of Creating Mathematical Model Through Diagram, Graph, or Table Cycle I	68
Table 4.19	The Percentage of Explaining Mathematical Model and Doing Calculation Cycle I	68
Table 4.20	The Percentage of Students' Mathematical Communication Ability Cycle I	69
Table 4.21	The Observation Results of Teacher Activity Cycle I	70
Table 4.22	The Observation Results of Student Activity Cycle I	72
Table 4.23	The Percentage of Students' Math Communication Ability in Expressing Mathematical Description into Math Model Test IV	77
Table 4.24	The Percentage of Creating Mathematical Model Through Diagram, Graph, or Table Test IV	77
Table 4.25	The Percentage of Explaining Mathematical Model and Doing Calculation Test IV	77
Table 4.26	The Percentage of Students' Mathematical Communication Ability Test IV	79
Table 4.27	Analysis Result of Students' Difficulties in Answering Questions	79
Table 4.28	The Percentage of Students' Math Communication Ability in Expressing Math Description into Math Model Test V	83
Table 4.29	The Percentage of Creating Mathematical Model Through Diagram, Graph, or Table Test V	83
Table 4.30	The Percentage of Explaining Mathematical Model and Doing Calculation Test V	84
Table 4.31	The Percentage of Students' Mathematical Communication Ability Test V	85

Table 4.32	Analysis Result of Students' Difficulties in Answering Questions	86
Table 4.33	The Percentage of Students' Math Communication Ability in Expressing Math Description into Math Model Test VI	89
Table 4.34	The Percentage of Creating Mathematical Model Through Diagram, Graph, or Table Test VI	89
Table 4.35	The Percentage of Explaining Mathematical Model and Doing Calculation Test VI	90
Table 4.36	The Percentage of Students' Mathematical Communication Ability Test VI	91
Table 4.37	Analysis Result of Students' Difficulties in Answering Questions	92
Table 4.38	The Percentage of Students' Math Communication Ability in Expressing Math Description into Math Model Cycle II	93
Table 4.39	The Percentage of Creating Mathematical Model Through Diagram, Graph, or Table Cycle II	94
Table 4.40	The Percentage of Explaining Mathematical Model and Doing Calculation Cycle II	94
Table 4.41	The Percentage of Students' Mathematical Communication Ability Cycle II	95
Table 4.42	The Observation Results of Teacher Activity Cycle II	96
Table 4.43	The Observation Results of Student Activity Cycle II	98
Table 4.44	Analysis Result of Action Taken Toward Students' Difficulties in Answering Questions	99
Table 4.45	The Improvement Criteria of Each Indicator	103
Table 4.46	The Improvement Average Score of Math Communication Ability	103
Table 4.47	The Improvement of Students Who Has Completed Mathematical Communication Ability	104
Table 4.48	The Observation Results of Teacher Activity	104
Table 4.49	The Observation Results of Student Activity	105
Table 4.50	The Results of Student Response's Questionnaire	105
Table 4.51	The Results of Student Response for Each Indicator	107
