

PREFACE

Praise and great thanks to God The Almighty for His amazing grace, love, strength, and health which have been given such that the author could finish this thesis well. This thesis which entitled “The Difference of Effect of Problem-Based Learning and Numbered Heads Together toward Students’ Problem Solving Ability on The Topic of Statistics in Grade XI SMA Negeri 2 Balige” is submitted in order to get the academic title of Sarjana Pendidikan from Mathematics Department, FMIPA Unimed.

In this part, the author would like to thank for all supports which gained for completion of this thesis. Special thanks to Mr. Drs. Syafari, M.Pd as thesis supervisor who has provided guidance, direction and advice from the beginning until the finishing part of this thesis. Great thanks are also due to Prof. Dr. Sahat Saragih, M.Pd, Dr. KMS. Amin Fauzi, M.Pd, and Dr. W. Rajagukguk, M.Pd as thesis examiners who have provided builded suggestion and revision in the completion of this thesis. Thanks also extended for Prof. Dr. Bornok Sinaga, M.Pd as academic supervisor and also for all lecturers in FMIPA Unimed.

The author also expressed sincerely thanks for Prof. Dr. Syawal Gultom, M.Si as rector of Unimed, Prof. Drs.Motlan, M.Sc, Ph.D as Dean of Mathematics and Natural Sciences Faculty, Prof. Dr. rer.nat Binari Manurung, M.Si as Coordinator of Bilingual Program, Dr. Edy Surya, M.Si as Head of Mathematics Department, Drs. Zul Amry, M.Si, Ph.D as Head of Mathematics Education Study Program, Drs. Yasifati Hia, M.Si as Secretary of Mathematics Education, and all staff employess which supported in helping author.

The author expressed thanks so much for Mr. Aldon Samosir, S.Pd as principal of SMA Negeri 2 Balige, Mrs. Hanita Simangunsong, S.Si as mathematics teacher, all teachers and staff employess who have helped author conductiong the research well. Another thanks expressed by the author to all students in SMA Negeri 2 Balige, especially Grade XI which consisted of Invictusion and others, also Grade X which consisted of Argentium and others, for every supports, love, and laugh during the research.

Most special thanks especially author would like to express for beloved father Ir. Saut Tambunan and mother Dra. Anna Juniar, M.Si, who always give spirit, motivation, and prayers for the success and completion of this thesis. The author also says thanks for author's big brother Pravil Mistryanto, M.Si for giving support both of morale and materials such that this thesis has completed. For all of author's family, thanks to be a part of author's inspiration.

The author also thanks for author's best friends Nelly, Widi, and Yohannes for every motivation and spirit for finishing well this "skripsweet". Thanks for all my friends in The Fourth Generation of Bilingual Mathematics Education, PPLT Unimed in SMA Negeri 2 Balige especially Trendsetter Room, seniors and juniors especially Danki in math department for every support, love, and oversight. For Jesica, Natasya, Stella, and Vania, thanks to be one of author's motivation and friends to be "pacu and more pacu". Thanks for every one who cannot be mentioned one by one who support and motivate the author.

At last, the author has finished this thesis in maximum level but author realized there are some imperfections. For that, the author asks for building comments and suggestions in order to reach the perfection of this thesis. The author wishes that this thesis would be useful to improve the knowledge, understanding, and enrich the science education.
