

LIST OF TABLE

		Page
Table 2.1	Scoring Criteria for Mathematics Communications	19
Table 2.2	Step of cooperative learning Model	21
Table 3.1	Description about Cycle I	41
Table 3.2	Description about Cycle II	45
Table 3.3	Scoring Guidelines Mathematical Communication Test	50
Table 3.4	The Category of Mathematical Communication Ability	51
Table 3.5	Criteria of Normalization	52
Table 4.1	The percentage of Students' Mathematical Communication Ability in Expressing or Illustrate Cycle I	62
Table 4.2	The percentage of Describe through Mathematical Ideas by Using Mathematical Symbols Cycle I	62
Table 4.3	The Percentage of Explaining Mathematical Model and Doing Calculation Cycle I	63
Table 4.4	The Percentage of Students' Mathematical Communication Ability Cycle I	64
Table 4.5	The Students' Mathematical Communication Ability Test I	64
Table 4.6	The Observation Results of Teacher Activities Cycle I	66
Table 4.7	Observation of Students' Activity in Cycle I	67
Table 4.8	Results Obtained from Cycle I	68
Table 4.9	The percentage of Students' Mathematical Communication Ability in Expressing or Illustrate Cycle II	78
Table 4.10	The percentage of Describe through Mathematical Ideas by Using Mathematical Symbols Cycle II	78
Table 4.11	The Percentage of Explaining Mathematical Model and Doing Calculation Cycle I	79
Table 4.12	The Percentage of Students' Mathematical Communication Ability Cycle II	80

Table 4.13	The Students Learning Completeness at Communication Ability Test II	80
Table 4.14	The Observation Results of Teacher Activities Cycle II	81
Table 4.15	Observation of Students' Activity in Cycle II	83
Table 4.16	Comparison Between Cycle I and Cycle II	85
Table 4.17	The Results Obtained from Cycle II	85
Table 4.18	The Increasing Mathematical Communication Ability of Each Indicator	88
Table 4.19	The Increasing Average Score of Mathematical Communication Ability	89
Table 4.20	The Observation Results of Teacher Activity	90
