

PREFACE

First and foremost, praise and thank to **Lord Jesus Christ**, who has blessed the writer with His loyal love, so that she has been through able to accomplish her thesis. The writer realize that she is nothing without God.

The writer hardly knows where to start expressing her gratitude but for sure the gratitude goes to all those who have assisted her in the process of completing this thesis. It would be impossible to list all names but several people deserve her sincere and special thanks.

Grateful acknowledgement is addressed to her thesis supervisor, **Drs. Eidi Sihombing, M.S.**, who has generously given the time, guidance and suggestion until this thesis comes to its present form. The writer realize although her thesis supervisor have the same family name with her, it doesn't mean there is a collusion. Sir Eidi teach how become a fair educator to her, it's such a more lucky and blessing of the writer to have him as her thesis supervisor.

Her enormous appreciation is also addressed to **Alkhafi Maas Siregar, M.Si.**, the head of Physics Department, **Prof. Dr. rer. Nat. Binari Manurung, M.Si.**, the coordinator of Bilingual Program. She wishes to acknowledgment **Prof. Dr. M. Bangun Harahap, M.S.**, **Dr. Ridwan A. Sani, M.Si.**, **Drs. Pintor Simamora, M.Si.**, as her examiners, for the valuable suggestions on this thesis. She also thanks to the validators of the research instrument and all lectures of Physics Education Bilingual Program who has become her inspiration during the academic years and this thesis completion.

Special thanks are extended to The headmaster of SMA Negeri 1 Tebing Tinggi, Physics teacher of grade ten, and students of X MIA 4 and X MIA 5 academic year 2014/2015 for the cooperation and attention during the research.

The writer will forever be indebted to her beloved parents J. Sihombing and L. Simbolon, for having given their great love, advise, materials, motivation, support and pray during the academic year and the completion of this thesis. She also thanks to her lovely sister **Noni Leoni Sihombing** and her lovely brother **Octo Obaja Sihombing** for their kindness, support, help, pray and love every day. She also give thanks to God, because He bless the writer through **Maktua Anita's Family, Maktua Putri's Family, and Bapauda Dodo's Family**, for every kindness that them give to her, she hope God give more blessing to their family.

She knows that a friend is the present of God in the earth. She give sweet thanks to **Yohana Glorya Tobing** for wiping her tears while she was had the heart falls on this thesis starting point, helping her in bad situation and raising up her spirit. She thanks to **Nancy Alretni Mendrofa, Afriany Vitaloka Siburian, Elmina Sari Panjaitan, Theresa Margareta Sirait** and guided sister **Lastama Sinaga** and **Oripa Sitohang** for all sweet moments in Que Sera Sera a small group. Her deepest thanks go to all of her friends in Sunday School GKPI Sriwijaya Church, especially to **Donda Hutauruk, Yohana Hutagalung, Artha Hutagaol, Fransisca Harahap, Elsa Siagian, Fitri Marpaung and Yolanda Hutauruk** thanks for laughter, spirit, mercy and pray in our togetherness. Her deepest thanks also go to all great friends in Physics Bilingual Program Year 2011 for their warm friendship, especially to **Iis Siswati Siregar, Vini Vidi Vici Batubara, Evi Mariani Mungkur and Yenni Manurung** thanks to give me such a relaxation during completion this thesis.

It would be difficult to find adequate words to convey how much she owes the people. Lots of thank to all of you. May God always bless us.

July 2015
