

PREFACE

Praise to God Almighty for all His bless and grace so that the study can be completed well in accordance with the planned time. This thesis titled *"The Effect of Discovery Learning Model Student's Toward Higher Order Thinking Skills in Dynamic Electricity Subject Matter at High School a giant field Academic Year 2014/2015"*. It's requirement of a Bachelor's degree in Physical Education, Faculty of Mathematics and Natural Sciences, State University of Medan.

In this moment I would like to thank to Prof. Dr. Sahyar, MS., M.M. as thesis supervisor who has provided guidance and advice to the author since the beginning of the writing of the proposal until the end of this thesis. Thanks also submitted to Prof. Dr. Nurdin Bukit, M.Si as a lecturer comparison I, Sir Alkhafi Maas Siregar, M.Si as a lecturer comparison II, and Mam Rita Juliani, S.Si., M.Si as comparison lecturer III. Thanks also to Drs. J H Panggabean,, as academic lecturer and to all the faculty and staff employees of the Department of Physics Faculty Unimed who have helped me to finish this thesis. Thank you to Mr. H. Situmorang as Headmaster in SMA Raksana Medan that has allowed the authors to conduct research.

Especially the author said thank you so much to father D. Tondang and my beloved mother B.Sinaga, my sister Yenny Agustina Tondang, my brother Jeffry Sahputra Tondang, my little brother Maykel Budianto Tondang which has given support and meet all the needs and affection to the author so author can finish the study. And do not forget to my friends (Bilingual Physics, 2011), especially for my best friend Evi Mungkur and Mia Manik who always helped me in difficult condition and we write our thesis together and give support each other. Not forget to my PPL's team in Sibolga 2014 for the contributed to make happy when writer feel bored and my students in Matauli that support me from social media and many more that can't be mentioned here.

The author has tried as much as possible in the completion of this thesis, but the authors recognize there are still many weaknesses in terms of content, as well as grammar, author needs any suggestions and constructive criticism from readers for the perfection of this thesis. This thesis would be beneficial to the reader.
