

ABSTRAK

Jon Rikardo Panjaitan, NIM: 709141097, “ Pengaruh Motivasi Orangtua Terhadap Prestasi Belajar Siswa Dalam Mata Pelajaran Ekonomi Di SMA Santo Yoseph Medan T.P 2012/2013”, Skripsi Jurusan Pendidikan Ekonomi, Program Studi Pendidikan Administrasi Perkantoran, Fakultas Ekonomi, Universitas Negeri Medan 2013.

Masalah dalam penelitian ini adalah apakah motivasi orangtua secara parsial berpengaruh terhadap prestasi belajar siswa kelas XI-IPS SMA Santo Yoseph Medan TP. 2012/2013. Populasi dalam penelitian adalah seluruh siswa kelas XI-IPS SMA Santo Yoseph Medan yang berjumlah 60 orang dengan teknik pengambilan sampel *Total Sampling*. Tehnik pengumpulan data dilakukan dengan cara dokumentasi, daftar kumpulan nilai siswa dan angket. Uji Validitas angket menggunakan rumus *Korelasi Produk Moment*, dan Reabilitasnya dihitung dengan rumus Alpha. Desain Penelitian adalah Regresi Linier Sederhana, Untuk menguji penelitian yaitu dengan uji hipotesisnya uji-t, dan untuk melihat kontribusi pengaruh kedua variabel bebas dan variabel terikat digunakan uji determinasi.

Hasil Penelitian Menunjukkan bahwa secara parsial variabel motivasi orangtua (X) memiliki pengaruh yang signifikan terhadap prestasi belajar siswa dengan harga $t_{hitung} = 2,684$ pada taraf signifikan 95% dan alpha 5% yaitu nilai $t_{tabel} = 1,671$, dengan demikian maka $t_{hitung} > t_{tabel}$ yaitu ($2,684 > 1,671$). Hasil uji dari regresi linear diperoleh $Y = 74.756 + 0,160X$. Hasil uji determinasi dapat diketahui variabel X memberikan kontribusi 8% terhadap variabel Y.

Berdasarkan penelitian ini, maka disarankan kepada orangtua agar lebih memperhatikan anak-anaknya antara lain dengan cara mendukung kebutuhan siswa dan selalu memberikan motivasi lainnya. Pihak sekolah khususnya di SMA Santo Yoseph Medan, agar lebih meningkatkan kerjasama dengan orang tua siswa untuk lebih meningkatkan prestasi belajar siswa.

Kata Kunci: Motivasi Orangtua, Prestasi Belajar Siswa

ABSTRACT

Jon Rikardo Panjaitan, Nim: 709141097, Effect of Motivation Parents To Learning Achievement students for economic subject class XI IPS in Senior High School Santo Yoseph Medan Academic Year 2012/2013. Thesis Department of Economic Education, Commerce Education Studies Program, Faculty of Economics, State University of Medan 2013.

The problem in this study is whether the motivation of parents partial to learning achievement students for economic subject class XI IPS in Senior High School Santo Yoseph Medan Academic Year 2012/2013. The population was all students in class XI IPS Senior High School Santo Yoseph Medan , amounting to 60 peoples. The sample was 60 with a total sampling technique. Techniques of data collection is done by way of documentation, listing a collection of student scores and questionnaires. Test the validity of the questionnaire using Pearson product moment formula, and reliability is calculated with the formula Cronbach Apha. The study design was a simple regression analysis to test the research is to test the hypothesis t-test and

The results showed that in partial motivation of parents to learning achievement (X) has a significant impact on learning achievement (Y) for $t_{hitung} > t_{tabel}$ is $2.684 > 1,671$ for significant influence of 95% and alpha level of 5%. It is seen from the calculation of simple regression is $Y = 74.756 + 0,160X$. Motivation of parents to learning achievement have determination 8% of the remaining work readiness is influenced by other variables outside the study analysis.

Based on these results, it is parents give more attention or their children such as they can give support for their need and give motivation to students. The school especially Senior high school Santo Yoseph Medan can also communicate to parents to participate in guiding and directing students for progressing of students learning achievement.

Keywords: motivation of parents, learning achievement.
