Ester Lina Manurung. NIM 7103142024. Penerapan Model Pembelajaran *Aptitude-Treatment Interaction (ATI)* untuk Meningkatkan Aktivitas dan Hasil Belajar Akuntansi Siswa Kelas X AK SMK Negeri 1 Patumbak T.P 2013/2014. Skripsi, Jurusan Pendidikan Ekonomi Program Studi Pendidikan Akuntansi, Fakultas Ekonomi Universitas Negeri Medan 2014.

Masalah penelitian ini adalah rendahnya aktivitas dan hasil belajar siswa pada mata pelajaran akuntansi. Tujuan penelitian ini adalah untuk mengetahui dengan menerapkan model pembelajaran *Aptitude-Treatment Interaction (ATI)* untuk Meningkatkan Aktivitas dan Hasil Belajar Akuntansi Siswa Kelas X AK SMK Negeri 1 Patumbak

Penelitian ini dilaksanakan di SMK Negeri 1 Patumbak yang beralamat di Jl. Pertahanan Ujung Desa Patumbak 1 Kec. Patumbak Kab. Deli Serdang. Subjek dalam penelitian ini adalah siswa kelas X AK 2 yang berjumlah 21 orang. Penelitian dilakukan berdasarkan pendekatan Penelitian Tindakan Kelas.

Berdasarkan analisis diperoleh hasil pada siklus I yaitu 61,9% siswa memenuhi kriteria ketuntasan minimal dengan rata-rata nilai 76,24. Akan tetapi belum mencapai indikator keberhasilan yaitu 85%, oleh karena itu penelitian dilanjutkan ke siklus II. Hasil yang diperoleh di siklus II 90,48% siswa mencapai kriteria ketuntasan minimal dan rata-rata nilai 80,48 berarti telah melampaui indikator keberhasilan, sehingga penelitian berhenti di siklus II. Hasil observasi aktivitas siswa menunjukkan peningkatan aktivitas siswa sebesar 33,34% siswa yang dikatakan berkriteria aktif (Siklus I 42,85% siswa dengan aktivitas "aktif" dan "sangat aktif" sedangkan Siklus II 76,19 % siswa dengan aktivitas "aktif" dan "sangat aktif").

Dengan demikian dapat disimpulkan bahwa penerapan kolaborasi model pembelajaran *Aptitude-Treatment Interaction (ATI)* dapat meningkatkan aktivitas belajar dan hasil belajar siswa. Hal ini berarti bahwa penerapan model pembelajaran *Aptitude-Treatment Interaction (ATI)* dapat digunakan sebagai alternatif dalam pembelajaran akuntansi.

Kata Kunci : Aktivitas Belajar, Hasil Belajar, *Aptitude-Treatment Interaction (ATI)*

ABSTRACT

ESTER LINA MANURUNG, NIM 7103142024. Implementation model of learning Aptituted – Treatment Interaction (ATI) to enhance learning activities and results of class X AK accounting students of SMK NEGERI I PATUMBAK T.P 2013/ 2014 Thesis Department of Education Economics Education Program in Accounting, Faculty of Economics, University of Medan 2014.

The problem of this study is the low activity and student learning outcomes in accounting subjects. The purpose of this study was to determine the learning model by applying *Aptitude- Treatment Interaction (ATI)* to enhance learning Activities and Results of Class X AK Accounting Students of SMK Negeri I Patumbak.

This research was conducted at SMK Negeri I Patumbak is located at Jl. End village Defense Patumbak I Sub-district Patumbak Regency Deli Serdang . subjects in this study were students of class X AK 2, Amounting to 21 people. The study was conducted based on classroom action research approach .

Be based on the analysis of the results obtained in the first cycle is 61,9 % of students meet the minimum completeness criteria with an average value of 76,24. However, indicators of success that has not reached 85%, therefore the study continued to cycle II. The results obtained in the second cycle 90,48% of students achieving minimum completeness criteria , and the average value of 80,48 means has exceeded the indicators of success, so the research stopped in the second cycle. The results of observations of student activity showed an increase of 33,34 % student activity. Of students who said active criteria (cycle I 42,85% of students with the activity of “active” and “very active” while cycle II 76,19% of students with the activity of “active” and “very active”)

It can be concluded that the application of learning models Aptitude – Treatment Interaction (ATI) can enhance learning activities and student learning outcomes. This means that the application of learning models Aptitude – Treatment Interaction (ATI) can be used as an alternative in learning accounting.
