

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

5.1 Conclusions

Based on the analysis, the conclusions were stated as the following.

- 1) Based on the data analysis, it was found that the utterances in humorous talk show in generating the humor consisted of two ways of the three ways namely (1) incongruity way and (2) superiority way while relief way was not found. By using incongruity way, there were two of five levels of incongruity found such as incongruity of (1) phonology and (2) graphology while morphology, lexis and syntax were not found.
- 2) The underlying reason for the ways of humor generation is the function of humor in the humorous talk show such as (a) aggressive function and (b) social function. The different topics of discussion in each humorous talk show and the characteristics of the talk show itself also affect the ways of humor generation.

5.2 Suggestions

In relation to the conclusions, suggestions were offered as the following.

- 1) Television watchers, to pay attention to the incongruity way so they will have better understanding in enjoying the humor.
- 2) Humorists, to give them more highlight on the incongruity way so that they can create humor in such a way.
- 3) Further research, to conduct other researches not only in talk show but also other different field in enriching the researchers and the readers' knowledge of linguistic devices used in the ways of humor generation related to language and humor (LaH).
