

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusion

After analyzed the types of speech function in Jokowi's speeches, the conclusions are presented below:

- 1) There are just three of four speech functions that the researcher got from Jokowi's Speeches; they are Statement, Question, Command, and there is no Offer. Statement were 88 (75,86%), Question 11 (9,48%), Command 17 (14,66%), and there is no Offer in Jokowi's Speeches (0%).
- 2) The dominant type of speech functions used in Jokowi's speeches is Statement 88 (75,86%). This is because the speech function of statement deals with the commodity of information rather than interacting the commodity goods and services.
- 3) The result that show statement as the dominant type of speech function that is used in Jokowi's speeches it's mean give or state information, the way of the speaker to deliver the information about the Jakarta city's problem and how to solve that, the speaker's planning for Jakarta, and give thanks for the audience in Jakarta Anniversary to the audience by using statement. So, the implication of the dominant types speech function in Jokowi's speeches is it show that the characteristic of the speaker or Jokowi is more give information to influence the people than give good and services.

B. Suggestion

Having seen the results of the study, the writer would like to offer some suggestion which were stated in the following:

- 1) It suggested to linguistic students to study more about speech function its types, so they can understanding how speech function used in daily life especially in speech and they know how to use speech function deeper so that they know how to influence the people by using speech function.
- 2) It is suggested to the people involved in speech to give a clear information and clarification about certain topics, so the audience will get the good information from the speech.
- 3) It is suggested to do more study about speech functions in speech or another way of communication. It is to find more specific result about the use of speech function in speech or another way of communication.
