

ABSTRACT

Sinaga, Margareth F. 2012. The Analysis of Process in Selected Speeches of President Susilo Bambang Yudhoyono. State University of Medan. Faculty Language and Arts.

This study attempts to discuss The Analyzing of Process in Selected Speeches of President Susilo Bambang Yudhoyono. This research was conducted by using descriptive qualitative method. The data were collected with documentary technique. The purpose of this study is to find out types of processes in SBY's speech and the dominantly types of processes namely material process. The object of the study was five speeches of SBY in Cabinet Indonesia Bersatu I and II. The speeches were chosen randomly. The data were clasified based on the types of process namely: material process, mental process, relational process, behavioral process, verbal process, and existential process. Based on the research finding, it was found that the types of processes in the text are 1387 verbs and classified the verb into 868 verbs as Material process (62.58%), 46 verbs as Mental process (3.31%), 130 verbs as Relational process (9.37%), 208 verbs as Behavioral process (15%), 25 verbs as Verbal process (1.80%), and 110 verbs as Existential process (7.94%). Material process is the most dominated used. From the data, it could be known that the speeches need physical activities in realization not just as verbal activities.
