

## CHAPTER V CONSLUIONS AND SUGGESTIONS

### A. Conclusions

Based on the research findings, the researcher concludes that there is a significant effect of teaching by using TSI on students' reading comprehension. Therefore, alternative hypothesis is accepted that TSI has a significant effect on teaching students' reading comprehension and null hypothesis is rejected. It is proved statistically with t-observed (5.00) is higher than t-table (2.000).

### B. Suggestions

Based on the conclusions above, teaching by applying (TSI) is proved effective in improving reading comprehension .Therefore, the researcher suggests for:

1. The teachers should try to use TSI in teaching reading comprehension
2. And for the students of university should try to research this TSI to validate these findings.
3. Student should implement this strategy when they encounter reading activity
